

S2 - Sight and Hearing Committee Report

August 2025

The Sight and Hearing Committee met on August 3 at Pilot Dogs. I was unable to attend due to another Lions activity.

Pilot Dogs has recently opened its newly remodeled facilities, which include updated dormitories and kennels. This expansion will allow them to serve more students in the service dog program and to offer additional training in white cane usage.

Columbus Speech and Hearing is now accepting donations of hearing aids. These devices are refurbished and provided to clients in need.

Prevent Blindness Ohio continues to operate a program that provides eyeglasses to patients in financial need. While I am not yet fully familiar with the details, I plan to learn more about this valuable initiative.

Yours in Service,

PDG Dave Luttrell
