

D5 – OH5 Eye Care Advisory Committee

Report November 2025

Lions, yet another plea for assistance. The Eye Care Committee (me) is receiving several requests and difficult decisions are being made by a single Lion. Additional Lions are needed to review and approve requests.

One request has been processed since August. A second request has been approved but we are having problems getting payment made (Walmart has one approach and OLF has another). Two requests have been initiated and are in the application completion phase.

The fund has over \$30,000 and so there are many individuals that can be identified and referred. Please help in managing these requests.

Yours in Service,

PDG Dave Luttrell
