

F5 – Sight and Hearing Foundation Report

August 2025

The Sight and Hearing Foundation met October 26.

A new initiative OhioSEES, recently approved by the Ohio Legislature, will fund traveling optometrists to evaluate patients and provide necessary eyeglasses at no cost to the patient, using state funds. Lions will have the opportunity to partner with these optometrists by conducting initial vision screenings. I have received a request for many Lion volunteers to help with screenings in Clark, Franklin, and Montgomery Counties. How can we organize these Lions?

The Foundation received three requests for assistance. Two were approved and the remaining one was referred to the OH5 Eye Care Fund (which is in work).

Yours in Service,

PDG Dave Luttrell
