HELPING CHILDREN WITH CANCER

1st VDG Peggy Harriman

DG Frank Bega

As reported in the August newsletter, close to 12,000 children are diagnosed with some form of cancer each year in North America. Fortunately, treatment for children in District 19E of the United States is only a few miles away. That is not the case with children in District 19E British Columbia. Children must travel either to Vancouver, BC or a hospital in Alberta. We can help by raising funds, and many clubs already do that.

So how can we possibly help these children? As a district project, I am asking each club to donate at least a combination of 5 books and 5 other items to be distributed to the hospitals that children in our district may have to visit for **CANCER** treatment.

In Washington and Idaho, you can send the following items to Sacred Heart Medical Center.

At C+W our primary concern is the comfort and wellbeing of our patients and their families. You will find below a listing of age appropriate toys & gifts needed and acceptable to C+W. We also have a few guidelines which need to be followed:

- Due to infection control and allergies, we CANNOT accept used toys of any kind. This includes stuffed animals that have only been on display.
- All donations must be new and NOT gift wrapped. Toys need to be inspected so that they can be matched with an appropriate child.
- Please, no toys or action figures with weapons or violent themes such as guns, knives, swords or other projectiles.

Online donations are gratefully accepted to help stock the toy and activity needs throughout the year. Should you wish for us to do the shopping for you, you can donate online and we will fulfill specific needs: <https://www.bcchf.ca/donate/other-ways-to-give/toy-bank/>
