## **Dar Es Salaam Savannah (133303)**

\*ENVIRONMENT ACTIVITY BY SAVANNAH CLUB Done On 10/9/2018\*

A Group of Savannah mmbrs travelled to 'Makazi Mapya' ward in Mlandizi 75 kms from Dar. for Environmental activity whereby specially selected \*species of Trees\* were planted that would benefit the School:

1 Science Education to be learned on these particular category of trees

2 Due to its amazing sprawl of its large size/wide leaves...students will enjoy extraordinary shade of extra magnitude in its circumference.

3 Some of the trees are fruit bearing but first time introduced, so farmers in that community can have diversity in their cultivation

The school was at the same time holding Graduation ceremony whereby our club president Lion Bakary Omary was the Guest of Honor.

The turnout was huge and In presence were 2 councilors, community leaders, parents, students and wananchi.

Awareness given on Lions as a service organization towards meeting needs to Humanity was well received and appreciated largely by all.

Challenges tha the School is facing are :

- Lack of proper office for teachers
- No reliable supply of water
- Shortage of books in the Library
- Some Class rooms floors are damaged, need plastering.

With Lionistic rgds,  
Lion Khalifa Mndeme
