

Alert Report for 8-21-22 District D Cabinet Meeting

Okanagan Falls, BC

At the current time, with information available, the US Alert account stands at \$4537.45 and the Canadian Alert account is at \$3740.49. These funds are available for use within our district. It is my understanding the Canadian funds were only to be used in Canada, and mainly for wild fire relief. The US funds have no restrictions on them and can be used anywhere within our entire district.

The restructuring of the MD 19 has now passed and we will be joined by 5 zones of district E which are those in Canada. These zones also have 2 US clubs which will also be coming with them. At this time, the consensus of the merger committees, has been, that these funds will be available for their use, starting in 2023 Lions year.

It would be wonderful to grow these funds, so we can help others. Please consider donating to either of the Alert accounts.
