

Lions District D
Cabinet Meeting, April 28, 2023
CARE report

I can report that the contributions to CARE for the project in Haiti are down.
As of March 2023 only 14 clubs in District D have contributed to CARE.

Contribution in the Multiple District are also down and at this rate will be short of the goal \$40,000 needed to support the program.
There are 9 Districts with in MD19 of these only 2 Districts have contributed more than 4,500 one of these being District D.

If each District contributed \$4,500 we would achieve our goal of \$40,000.
A zoom meeting with all the CARE chairpersons in the Multiple District has been proposed for May. A serious discussion on how to continue with this program needs to take place.

Respectfully submitted
Kim Davis, District D,
CARE chairperson
