

Summer Cabinet - August 2021

Lions Foundation of Canada.

Over 56,000 kms were logged as participants got active virtually for the annual Walk for Dog Guides at the end of May. This was equivalent of 10 laps across Canada.

I unfortunately have not yet received the total collected for the walk.

Matching has resumed in all programs using a combination of virtual learning, home placements and in-person team training at the Oakville facility.

A Guide Dog can give a person with disabilities Independence; Confidence; Companionship as well as increased mobility or peace.
