

Cabinet Meeting  
OK Falls  
August 21<sup>st</sup>, 2022  
Environment Report

DG Debbie, fellow cabinet members

Our environment needs our attention now more than ever drought in the west floods in the east. Weather is a constant reminder how things happen beyond our individual control. Collectively we can make a difference pick up our waste, repair our equipment, repurpose our throw a ways, recycle our waste.

My goals for this year are: more district participation, find someone to co-chair with me, monthly articles for DG bulletin, visitations where applicable.

I am looking forward to an interesting and enjoyable busy year.

Respectively Submitted

PZC Angus Benedict
