

Lions District D
Cabinet Meeting, October 30, 2021
CARE report

We have all either heard or seen the news coverage of the turmoil in Haiti and have wondered about its impact on our CARE support project. As our Care projects are based on a two year fund raising program there is not much to report in the first 12months. CARE can not implement any of our projects until they have received sufficient funds from MD19 to commence work.

I can report that the program is moving forward and our contributions from the Multiple District have been sent to CARE and they have “boots on the ground” to quote our Multiple District CARE Chairperson Patti Easterling. A more in-depth report will be forth coming at the upcoming Convention.

Again, I encourage all to support District D in its fund raising endeavours to support the CARE project in Haiti. The Multiple District has partnered with CARE since 1958 and has supported two year programs with CARE to help the poorest of the poor, then.

Respectfully submitted
Kim Davis, District D,
CARE chairperson
