Restoring Sight, Hope, & Hearing

District D Cabinet Meeting
Saturday January 29, 2022

How exciting to finally meet in person for our quarterly meeting, after 2 years of zoom. The NLF team met at the Sea-Tac area on December 11th.

The (LHSU) Lions Health Screening Unit has been in storage due to weather, but should be coming out soon. We have two drivers, Skip Laney and Todd Malo.

We are happy to share that Lake Chelan member Craig Boothe has stepped up to be on our committee, representing District D, approving the following programs:

- a. Hearing Aid Program
- b. Patient Care Grants
- c. Project Support Grants

Keep an eye on the Border Crossing, as we will be sending in articles of the great work the NLF has contributed to in MD-19.

Please check out our website, www.nlfoundation.org should you have any questions. Or call me, I'll be glad to come visit.

Respectively submitted,

PDG / NLF Trustee *Shelley Costello*
