District D Cabinet Meeting  
Saturday August 7, 2021

The 2021 Lions Health Screening Unit (LHSU) schedule is filling up, and it is keeping our driver Skip on the road and busy. I had the pleasure of riding up to Leavenworth Lion's Club with him Saturday June 26, and work that day screening many people. It was very enjoyable. We teamed up with the Leavenworth's first pancake breakfast of the season. If you haven't been by to eat breakfast out in the park at Leavenworth, you are really missing out!

I have been reaching out to clubs to share a program with them, and remind everyone of the programs and grants that we do have available, even though it may be on a smaller scale for awhile, vs past years.

White Cane Days can be anytime you wish. Have you filled out the form to have Marsha Rastatter send additional white canes to you? Don't be left short. Everyone is coming up with great ideas to share white canes and fund raise. We truly appreciate each of you and your support.

Respectively submitted,

PDG / NLF Trustee *Shelley Costello*
