

NWLERC Cabinet Report August 21, 2022

I am happy to say this is my sixth year serving as your Northwest Lions Eyeglass Recycling Center representative for District 19D. But, as you may know, there are changes in the geography of the Districts in the near future.

With our new District I expanding east and adding several zones from District E, there will be a need to look at representation for NWLERC. Will one person continue as the Director or will we need to make it a two Director area?

NWLERC is pondering the future with efficiency and effectiveness in mind, so I will keep you up to date as their needs and decisions are formed.

The Lions of our District continue to collect used eyeglasses and that makes “Changing lives, one pair of eyeglasses at a time” a mission and a pleasure.

PDG Patti Sparks, District 19D Director
