

FREE KIDSIGHT CERTIFICATION TRAINING

Join us on Tuesday, July 29th, 2025

6:30 PM to 8:00 PM

Montebello Senior Center
115 S. Taylor Ave.
Montebello, CA 90640

1 in 3 children have poor but correctable vision - often just needing glasses. Vision problems undetected by age 7 can become permanent. YOU CAN make a difference. Join us and learn the simple WelchAllyn Spot Camera used to vision screen kids aged 6 months to early grade school. We will also prepare you to take the free on-line certification exam so you can help change the future of young children.

This program is so simple, easy and potentially life changing, we would like to expand screenings beyond our current service area which is the greater Long Beach area. KidSight needs your help. Please RSVP no later than July 25th, 2025 to Lion Cindy Farber at clfarber@hotmail.com or 213-369-7742. Please note space is limited.

NOTE: Screenings occur weekdays ONLY - Monday to Friday. Daytime availability IS required. And you pick and choose from provided screening dates convenient to you.
