

2021 White Cane Day Event

October is the LCI'S White Cane Day month to promote vision awareness. The Arcadia Champion Lions, Monrovia Lions, LA Star Lions, and Los Angeles Grace Lions are going to hold a Free Eye Examination event at the Arcadia Community Center on October 16, 2021. It is to publicize the awareness and the importance of the correlation between vision care and health care. We are also providing 200 Free COVID-19 tests to the participants.

We are grateful that the eye doctor, Kenneth L. Lu, MD, will help us with this event. He will use the newest advanced vision examining instruments to screen for cataract, glaucoma, nearsightedness, farsightedness, astigmatism, intraocular pressure, eye tiredness, and trachoma, etc.

The purpose of this event is to provide a screening to people, so they have the information to improve their vision and further eradicate blindness. This event is one of most popular ones. Please register by contacting the people listed below.

Date/Time: 10/16/2021 (Sat.)

10AM ~ 2PM
