

District 4-L2 Diabetes Expo

Dear Lions and Leos,

Clubs stand up and support of the community in the fight against diabetes. We have started increasing our efforts to promote diabetes awareness and education. On November 10th, 2018 District 4-L2 will be holding our First Annual Diabetes Expo. This is your opportunity as a Lion and as a club to get involved by attending and participation with a booth about diabetes prevention. This invitation includes Leos as well.

We are reaching out District 4-L2 clubs to bring their ideas. Clubs may choose from many resources to educate others about the impact of diabetes in their clubs and communities. Keep in mind that each club can earn the diabetes Centennial Service Challenge Credit by participating in the “Club Hands-On Activity” and reporting this service activity in MyLCI.

Take action and join us.
Applied Technology Center (ATC) High School

November 10th
8:00 am – 4:00 pm

Lions Clubs International States

“Diabetes contributes to more than 5 million deaths a year, making it the eighth-leading cause of death in the world. And the numbers are rising. Lions and Leos are confronting this global health emergency by raising awareness of diabetes through Strides events, expanding access to care through screening and treatment programs, and improving quality of life through diabetes camps and community recreational programs. We believe we can help prevent and control this global epidemic by uniting Lions and Leos around this cause.”
