

GET Report for Meeting – March 15, Wenatchee, WA

General Update:

There is not much to report at this time, as the **winter weather and potential poor driving conditions** have led to a slowdown in efforts to establish two new Lions Clubs. Despite these challenges, progress is continuing, albeit at a slower pace.

Club Development Updates:

- **Salmon Arm Lions Club:**
 - The effort to **re-establish a Lions Club in Salmon Arm** is still ongoing, though progress has been gradual.
 - The goal remains to have everything operational by **June**.
- **Grand Forks Lions Club:**
 - The club has been on **hiatus for the winter**.
 - Plans are in place to **restart activities in April** with a **membership drive**.
 - The goal is to successfully **bring back a Lions Club to Grand Forks** through renewed efforts and community engagement.

We remain optimistic about these initiatives and will continue working towards our objectives despite seasonal delays.
