

June 13, 2025

Dear Marketing Team,

Upon discussion last night over how, we can minimize multiple versions of flyers and still have a resource to deliver an accessibility version, please see the following demonstration

This is a sample to demonstrate how we can apply a link to a flyer pointing people to an accessibility version

Accessible version here

Click the link and it takes you to the file

The page that this file is stored is hidden and not part of the menu

Rational explained
