

Sixth Annual Fishability Days

For the past five years, District 27- D2 Lions in conjunction with local Fish and Wildlife Specialists host a fishing jamboree at the Genoa National Fish Hatchery. Saturday, June 9th, at 9:00 a.m. The children of District 27 D-2 with special needs are invited to the Genoa fish hatchery to catch their limit of river trout. The pond has handicapped-accessible docks as well as a plethora of volunteers eager to bait hooks or unhook fish. All fish are cleaned and bagged for the children to take home and share with family.

Because this event has become increasingly popular, a 30 student limit has been imposed. It is important to register your child early to guarantee a slot in this fun filled day. Regardless of a child's disability, District-2 Lions guarantees that every child will catch a fish!

Participants need not bring a fishing pole or bait since both will be provided. A lunch will be provided at the conclusion of this event for all children and volunteers. In addition to catching a fish, participants will also receive a participation medal, tackle box, and T-shirt. Registration forms can be found at your local Lions club, on the district website, or email Dan Wolfe @ dwolfe9760@aol.com.

Please remember, regardless of disability your child is welcome!
