

The

Lions District 46 - Nevada

Volume #3 No.14

January 2019

Welcome Spring

Thank you to each and every member, club and those that worked on the cabinet of Lions District 46. This has been a whirlwind year. The one thing I heard going into the District Governor seat is it will be an unforgettable year. This has proven to be true to this point. My respect for those that serve is unwavering.

I wish the incoming cabinet a wonderful year for 2019-2020. Barbie will be a wonderful leader for the district. She has worked hard for the good of the district as 1st VDG.

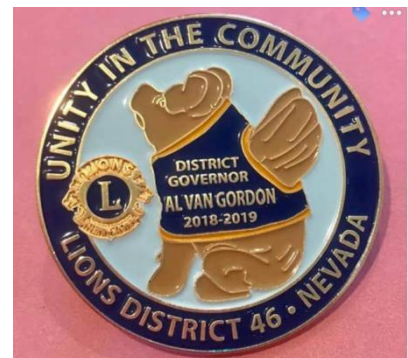

We have lost numerous members over the last years which equates to loss in dues revenue and service to the community. Luckily as of today 3/13/19 we are on the plus side of membership. Our existing members of 1084 have stepped up to fill in the void of those members that left the association. Clubs are doing some amazing things for those in need.

I received a completely unexpected email from a Lion in Region 1 helping to get our Beep Ball team to the World Series in Tulsa. This was done without personal gain or recognition. More to come at the cabinet meeting.

I am the proudest and happiest District Governor in the world.
I thank the Lord for my wife First Lady Evelyn and District 46.

Your Pal Al
District 46 Governor
2018-2019

PDG Bill Newyear

1st VDG Barbie Hertz

It has been a great year! So many learning opportunities and traveling so that I can help bring new ideas to our District.

The one thing that has stuck with me most is being a Lion Leader is not about growing our own reputation or awards, but leading others to find their potentials and opportunities for self growth and knowledge. I personally believe in Servant Leadership. It is the goal of a Leader to serve others which differs from Traditional Leadership where the leader's goal is to improve their own business, reputation or goals.

I hope that our District will continue to improve our Servant Leadership skills and reach out to even more people in our communities. We have a terrific Lion family and I am so proud to be part of it.

I am looking forward to a great rest of this year and so excited about my upcoming year as your District Governor. Thank you everyone for your help and support to keep me motivated to do the best job I can for Governor Al and for all of you.

Please don't forget the upcoming Regional Leadership Institute. It is an opportunity for anyone interested in sharpening their skills whether interested in being a leader or not. It will be a great time for learning and sharing. Hope to see you there!

*Sincerely,
1st VDG Barbie Hertz*

**Peace Poster winner
2018-19**

From City of Hope

I'm excited to share a **behind-the-scenes peek at how you help turn researchers' ideas into lifesaving scientific breakthroughs.**

Every patient at City of Hope has a team of hundreds on their side, working to give them a second chance. [The entire drug development process — from lab bench to bedside — happens right here on campus,](#) which is one of the things that makes City of Hope so special.

It all starts with a lightbulb moment. A **researcher** has an idea, and he or she takes it to our on-campus **chemists**. Together, they design a drug. And then our **manufacturing team** comes into play, making the drug and ensuring it passes all Food and Drug Administration standards

After researchers test the drug in the lab, it's time for clinical trials. So our **pharmacologists** get involved, figuring out how the human body will process the drug. City of Hope even has a **mathematical oncologist**, which is extremely rare. He weighs in from a data perspective, analyzing the results and making adjustments. And finally, the drug arrives at the **patient's** bedside, helping to save a life.

As a City of Hope supporter, you make it all possible — from a researcher's lightbulb moment to a lifesaving clinical trial. [I hope you enjoy learning more about your support in action.](#)

Sincerely,

Emily Parris Sandler
Senior Director, Digital Philanthropy

P.S. It truly takes a village to develop the leading-edge cancer treatments. And that whole Village is located right here at City of Hope.

Membership

I'm happy to report that, as of this writing on March 22, District 46 is 32 members larger than it was on June 1. We have 1084 members which is still below the 1250 we should ideally have, but certainly a positive step.

At the beginning of this Lions year, I suggested the theme of "Net One": each Club would try to finish the year at least with a net one member gain. We are close and kudos to those Clubs who are in the plus column. I would remind you, however, that there are still three months left in this year so there is still time for all our Clubs to "Net One".

I don't have any words of wisdom for this report. Over the past two years, I've tried to offer innovative ideas for attracting new members, orienting them once they became members and holding on to them. I'd like to think that some of you have made use of these ideas.

The bottom line, however, is that membership boils down to just three principles. New members are crucial to maintaining the effectiveness of a Lions Club. Membership is EVERY Lions responsibility. And it takes very little effort to ask someone to attend a Club meeting or participate in a Lions service project.

I will be stepping down as District GMT Coordinator to serve as a Zone Chair for VDG Barbie and putting the responsibilities of Membership into the capable hands of PDG Barry Temple.

Plus 32. Keep it going. PDG Bill Newyear, Dist. 46 GMT Coordinator

Leadership

By PDG Marcia Newyear

District 46 leadership has accomplished a lot this Lions year. We started out with Club officer training at the Convention in Las Vegas. Did more club officer training at the Blind Center in Las Vegas. Then heading up north for a day of training in Reno. We had the District Women's Leadership Retreat in October in Carson city which was a blast. There has been training at many of the District meetings.

All of this has taken place thanks to the encouragement of District Al Van Gordon. He has made the effort in his travels to each of the clubs to find out how they can be helped to grow and prosper.

We still have the rest of the year and coming up April 26th - 29th we will be holding, for the first time, a Regional Lions Leadership Institute. Nevada will not only benefit from this training, but also Arizona and Utah. We have six top notch instructors coming from California, Arizona, Georgia and Nevada. Not something to miss.

If you are an incoming President, Secretary, Treasurer, Zone Chair, Region Chair or Tail twister, please make sure you are at the training to take place Saturday, April 6th 1:30 - 2:30 pm. Even if you have held that position in your club before, things change from year to year and this year was a good example. You might even learn something new. I want to thank all the leaders (club and District) that have encouraged and helped train their successors. We all need to work together for the betterment of our Clubs, the District and Lions Clubs International.

Airport dedication to naming the Winnemucca Municipal Airport - Airfield after our Lifetime Lion member Leon Franklin.

The Winnemucca Municipal Airport Board unanimously approved dedicating their airfield to Lt. Colonel Irl Leon Franklin, USAF (Ret) for his 30 years of volunteer service, including 20 years as chairman of the airport board. During his years of service he has managed to obtain \$22 million dollars in FAA grant funding awarded to the airport as well as initiating the Winnemucca Civil Air Patrol program after the need was identified.

The stone will be paid for by funds privately raised and will not affect the cost sharing agreement between the city and county or taxpayer dollars. Winnemucca Host Lions Club kicked off the collection for the stone by donating \$250.00 toward the approximate \$600.00 cost and will be keepers of the collection of funds until the total amount is received to proceed with this dedication.

Attached is a photo rendering of the current Winnemucca Municipal Airport stone showing the proposed addition.
