# DISTRICT GOVERNOR, MITCHELL SEMANS

Dear 25A Lions

We are all connected, which is this year's theme for the peace poster contest. Please get with your school's, art teacher and youth groups. There's still time to order kit and get something going. It's also another way we as Lions can support our kids and be visible in the community. Lions are more than just pancake flippers, vision screeners and candy solicitors. We have all sorts of educational programs we can promote such as Liberty Day, diabetes awareness and peace poster contest. We get so involved in the community helping people with all sort of physical needs some times we forget about one of the most powerful resource of all, KNOWLEDGE. Being able to provide your community with knowledge is huge in its self. Giving people the knowledge that the Lions can provide not only resources to improve the quality of life but also provide educational information such as how to manage diabetes, information on the U.S. constitution and let's not forget about reading programs. Reading is essential for learning and the Lions are one of the connecting blocks that support many educational programs.

We all know some one that needs help in some form or fashion AND we all know people that want to give a helping hand. The more we connect with people the more opportunities we have to grow membership which will lead to more service projects which will generate more opportunities for educating the world what Lions do. Everything we do as Lions is a perpetual circle connecting us with everyone. The eye glasses we collect on a local eyeglass drive will help someone from across the world see better and in turn they might be in a better position to help someone else in a different capacity and the circle keeps rolling. As long as we keep connecting with people we will continue to do the great things people know and love about Lions. Keep up the great work and I'm looking forward to visiting all of you. If you haven't set your official visit up yet just give me a call. I also have extra district directories if any one needs one and keep in mind the directories are also on line on our district website. Thank you for all you do, May the Lions Be With You and God Bless

DG Mitchell Semans

Members of District 25A attended the banner night for District 25D. Pictured are DG Mitchell and Wendy Semans, DG Scott Smith of 25D, Alice and 2nd VDG Stephen Helmken.

## 2ND VDG, STEPHEN HELMKEN

I want to start this out by saying how proud I am of the Lions of District 25-A! Summer is a busy time for everyone, but the Lions of Indiana took time to help at the Indiana State Fair, and our District was well-represented. 1st VDG Nick Gonzalez was just finishing his shift at Gate 18 when Lion Alice & I arrived to start ours. Other Lions we saw when we arrived were PDG Connie Roe along with her husband PDG Kevin Roe, and their daughter, Lion Karlene. I also saw on Facebook that PDG Robin Smith, and her grandson, Troy McCormick; Lion Paul Marsh; and Irene and William Rosevear were working at the Fair. I am sure there were others from District A, and I apologize for not mentioning their names. But it's only because I didn't see you or see your picture on Facebook. Thanks to ALL who helped.

Since my last article, I have had the opportunity to visit two clubs to install their 2021-22 officers. My first visit was to the Union Mills Lions Club, and it was my pleasure to meet with them for the first time. The club is presenting the Peace Poster Contest in the Union Mills School for the first time. And they are planning a Fun Day to let the community get to know them and find out what Lions Clubs are all about. There were a lot of ideas flowing around the tables that night.

My second club visit was to the La Porte Lions Club. This club has been active with the Lions Alert program for several years. They are also getting ready to take dictionaries to schools in La Porte. I thank them also for inviting me to install their new officers. I thank both clubs for inviting me to be a part of your evenings.

If you missed the Pancake Breakfast at the La Porte County Airport you missed some great food. The Westville Lions Club, with the help of Lions from other local clubs, did a great job. There was good food to eat, good fun to enjoy, and some great old aircraft to view. Great job, Lions!!

Fall is just about here, and a lot of clubs will be holding fundraisers. I encourage you to support their efforts. There will be Chili suppers, Pork chop dinners and other activities available. Get out and enjoy these activities while you support other Lions Clubs. Together we can make a difference in the world. And others will want to join in the fun, and the service. Getting new Lions involved is the way to keep them coming back.

May Your God Bless You in Your Service to Others,

2nd VDG Stephen J. Helmken

The installation was set up so that the International Director Lion Bob Block Sr. was able to do the installation. Dan's sponsor Bob Block Jr. was able to join the installation by Face Time. ### Type 2 Diabetes

Some people call it “the sugar,” or “sugar diabetes,” but the correct term for the group of metabolic disorders that cause your blood glucose (sugar) level to be too high is diabetes mellitus, or diabetes for short. It is not caused by sugar, per se, but it has everything to do with how your body handles the sugar you consume and what you do to manage the level of sugar in your blood.

More than 30 million adults in the United States — 9.4 percent of the population — had some form of diabetes in 2015. It was the seventh leading cause of death that year. About 84.1 million adults had prediabetes. Worldwide, more than 422 million people had diabetes in 2014.

### Prediabetes and Insulin Resistance

Prediabetes is a condition that can lead to type 2 diabetes. In order to understand what causes it, you have to understand how the body handles sugar (or glucose) and processes it into energy. Glucose enters the body primarily through the food and beverages you consume. The pancreas makes a hormone called insulin in order to help the glucose in your blood enter your muscles,

fat, and liver to be used as energy. When the body does not use the insulin effectively, your pancreas initially produces more insulin to overcome this resistance. But when your pancreas is not able to keep up with the demand, the result is hyperglycemia, when blood glucose is too high. Insulin resistance is the primary cause of prediabetes, but the causes of insulin resistance aren't fully understood. Family history, advancing age, excess weight, and a sedentary lifestyle are among the known risk factors.

### Type 2 Diabetes

As mentioned, type 2 diabetes is caused by insulin resistance. Between 90 percent and 95 percent of all diabetes cases are type 2, and nearly one in four people who have it don't know they do. The condition typically develops in people who are older than 45 and is more common in the U.S. among people who are Asian, black, and Hispanic. It's also strongly correlated with carrying excess weight. Up to 9 out of 10 people worldwide who have type 2 diabetes are overweight or obese. But the majority of people who are overweight do not develop type 2 diabetes. By their mid- to late 70s, about 2 in 10 overweight adults and 4 in 10 obese adults in the U.S. have been diagnosed with diabetes.

You can treat type 2 diabetes through diet and lifestyle changes to lower your blood glucose levels and weight. In addition, many people with the condition monitor their blood glucose levels regularly; take oral medications; and sometimes inject themselves with insulin through a pen, pump, or needle.

If untreated or inadequately managed, type 2 diabetes may lead to numerous health complications, some of them life-threatening. They include periods of hypoglycemia (low blood sugar); diabetic neuropathy (nerve damage) that results in pain or numbness; foot and limb injuries, diabetic ulcers, deformities or even amputations; kidney disorders; heart disease; blindness; skin problems; digestive disorders; sexual dysfunction; problems with teeth and gums; and problems regulating blood pressure.

## Lions Clubs Urged to Help Their Local Schools Learn About the Constitution:

### 2 Great Opportunities -- By Lion Don Parker, District Liberty Day Chair

Lions Clubs can help promote civics and citizenship education with  
either of 2 great and easy-to-do projects:

- Constitution Day: Fri. Sept. 17, 2021
- Liberty Day: Wed. March 16, 2022 (birthday of Pres. James Madison,  
major author of the Bill of Rights)

Clubs can distribute pocket US Constitutions to their local schools in  
connection with either of these dates. This is a great opportunity to  
promote civics education AND the goals of Lionism!

- Pocket Constitutions are available to order from either Amazon.com  
or Walmart.com for only \$1.00 each.
- Civics education takes place at about the 5th or 6th grade level, so  
contact your local school and arrange to deliver pocket Constitutions  
for classroom use, or in connection with a Citizenship-related activity.
- As with The Dictionary Project, be sure to attach a sticker or mailing  
label with your local Lions Club's contact info or web site.
- Report your Liberty Day activities on your Monthly Activity Report.  
For more ideas or for a speaker about Liberty Day, contact Lion Don  
Parker at 219-801-5275.
