Global Membership Approach Overview

Global Membership Approach Defined

Global Membership Approach combines a strategic process and a set of resources. The goals are focused on membership growth through new club development. The 4-step process is universal, and customizable based on regional needs:

1. Build a Team

Learn about Global Membership Approach and begin developing a team to implement the approach.

2. Build a Vision

Conduct a SWOT analysis of the district, set goals based on the analysis.

3. Build a Plan

Review available resources and develop an action plan to achieve the goals.

4. Build Success

Execute the plan with engagement across the district, track and report results, and make course corrections throughout the year.
