

Together we will.

Changing the world. It is why you became a Lion. It is also why Lions Clubs International Foundation – our foundation – is empowering your service through its most ambitious fundraising campaign in history.

This was taken from the LCIF website I think it is very fitting for this tough time we are all going through. With COvid-19 this stopped me from doing my campaigning, however I will be contacting all clubs to let you know where you stand for funds collected and when we can I will be visiting everyone.

All of you know that making contributions to LCIF is funds donated by our members or from the club. I am happy to report that in our District we have **100%** participation; this is something to be proud of so please pat yourself on the back. But did you know there is more you can do as a club or a member?

By giving \$10.00 a month over 10 months you can be a 100 member that means you get a nice little pin that you can display proudly on your lapel, and if everyone in your club gave that you good become a 100 club and get a cool little patch to display on your banner.

The money that has been donated helps around the world to get grants for our communities to help those in need. Some of the Jackson clubs are working on getting a grant for our county for those medical front line workers.

This is a very difficult time, so in closing I am asking for you all to dig deep in your pockets and give a little more.

Thank You Stay Safe,

Lion Kelly Lubbe

LCIF Coordinator
