37 New Leos Charter Club in Elkins

High School Club sponsored by the Elkins Lions

ELKINS .. On October 1, members of the Elkins Lions Club, joined by district and state officials, welcomed 37 local students as charter members of the Elkins Leo Club.

The ceremony was opened by Lion and Leo Club Advisor Tiffani Hash. Elkins Lion Dean Rowland provided the audience and new members with some background information about the Elkins Lions Club.

Council Chair, Myrna Mcgee also provided some Lions Club history before installing Leo Bryn Shirley as the club's president. The new president then installed Leos Katie Greene, Haillee Leburns and Kanley Kestner as Vice President, Secretary and Treasurer.

After taking their initiation oath, each member crossed the stage as their name was announced, picked up their pin and certificate and signed the new club's charter.

The Elkins club is the only District 7-I Leos and the first anybody can remember.

Gravel Ridge Club

From our Council Chair:

To our Great Arkansas Lions -

We are well into our Lions year!! We have held three District Conventions. Congratulations to those District Governors and their Convention Committees. Much information has been available to those attending — including ways to grow membership, diabetes information and support, more women in Lions and other topics.

Clubs have been conducting vision screenings, collecting used glasses, providing glasses for those in need, giving diabetes screenings and education, participating in childhood cancer projects and much more. Many clubs have held White Cane days and, of course, we continue to induct new members.

You have been working and living our motto — “We Serve”!!

This week I had the privilege of participating in chartering the newest LEO Club in our Multiple District and inducting 37 fantastic new LEO Club members. What an exciting event—our next generation of Lions are on their way. They have already been involved in helping their sponsoring Club in many service projects. Their LEO Club sponsor has been such a great role model for them and has them “ready to roll”!! We’re looking forward to great things from them.

Remember to plan your service activities around our five areas of service—diabetes, childhood cancer, vision, hunger and environment. It would be great if each of our Clubs would plan one service project in each area. If you need ideas for service projects, please let your District Service Chairperson know and I know they will have many ideas for you. Don't forget to go to lionsclubs.org and search for service projects as there are many ideas there. Another great source are the Facebook pages of our Clubs.

As Lions, we're always looking for those who would be great Lions members—every new member will enable us to help 70 more people. A quote from our founder, Melvin Jones - "You can't get very far until you start doing something for somebody else."

I appreciate all you are doing to make your community and our world a better place. Remember our motto “We Serve” as we go about our daily lives helping others-- and always remember that "Kindness matters".

Yours in Lions Service -

Lion Myrna McGee

MD Council Chair

Donation for Diabetes Awareness

The Lions Diabetes Awareness program, located in northwest Arkansas has received a \$1699 donation from the Bentonville Noon Lions Club. That club chose to disband at the end of the fiscal year and has been very generous in donating their assets to other clubs and causes.

The Lions Diabetes Awareness program offers counseling and information throughout the district. They also offer short-time financial help when folks are in need of medical supplies

Bella Visita President Patty O'Bannon is a past president of the Bentonville Noon Club and has been part of the district's Diabetes program for many years.

Lion Patty O'Bannon reporting

David Henry, President of the Bentonville Noon Lions presents a check to Patty O'Bannon of the Lions Diabetes Awareness program.

Dr. Mike Scribner and Lions Rita Price and Patty O'Bannon visit at the Diabetes Screening station at the District 7-I convention.

Annual Convention Held in Clarksville

The district governor promised us a different convention this year, and that's what we got. It started Friday evening with hamburgers and bluegrass music and included guest appearances Saturday by Forrest Gump, Dolly Parton, Jane Fonda and Lilly Tomlin in skits about the Lions and Lion service organizations.

Our key-note presentation by International Director Ardie Klemish was about New Horizons in service. The director also spoke about women in the Lions, both key aspects of International President Gudrun Yngvadottir's program.

Highway Signs in recognition of their legacy projects were given to the White River, Huntsville, Rogers, Elkins, Fayetteville, Mountain Home and Gravette Clubs.

The only business of the convention was election of officers for 2019-20. The District Governor Elect is Kevin Baskin, First Vice District Governor Elect is Jeff Davis and Second Vice District Governor Elect is Terry Carson. Lion Bill Mattler was elected to serve a 3-year term on the LOAF Board.

ID Ardie Klemish and husband PCC Ken were guests at this years convention.

Harrison: Club supports Hope Cottages

Harrison Lions donated \$10,500 (\$10K Foundation & \$500 club) to Hope Cottages which is being built with donations and plans to open in October. They will provide transitional housing for homeless mothers and their children. Pictured is Lion Lou Ann Sutton presenting the check to Roy Thomas and Shirley Smothers. This is the largest donation our club has ever made and going to help such a worthy cause.

The board members of Hope Cottages plan to provide eight cottages allowing families to live in a safe environment where there will be a strong support system to provide mentoring and life skills information.

Lion Sydney Bailey, President Tammy Smith and Lion Andrew Aldridge are serving breakfast to contestants at the Bar-B-Q contest at the Fayetteville Bikes, Blues and Bar-B-Que event on Saturday, September 29.

Lion Rick Bailey reporting

Human Foosball Comes to Gravette

It was over a year ago that the Gravette Lions were challenged by a local business to Build a human foosball court for our communities' youth. The cost was shared by the business, the Lions Club and the Lions of Arkansas Foundation, LOAF. Six members, two volunteers (one with a tractor that drills post-holes) took 78 hours this spring to complete actual construction. The court was dedicated as part of the city's Independence Day celebration held in the same park.

Later this October will be the match-up of the year, the Gravette Lions v. the Gravette Kiwanis.

Lion Jeff Davis reporting

Rogers: War Eagle Run Raising Funds For The Friends of Hobbs State Park

(Bottom Photo) Club member Fred Lookadoo is a regular volunteer. He helped cut timing chips off runners shoes as they crossed the finish line.

The Rogers Lions Club has been around for over seventy years, and for twelve of those, they have benefited from the initiative and passion of its current President, Greg Lindley who, in 2006, helped organize the only trail run allowed at Hobbs State Park. Originally called the Hobbs Tail Twister, the first race including only one distance (ten miles), and welcomed just under 90 runners.

With the help of local businessman, Mike Rush, the race grew into the War Eagle Trail Running Festival it is today. As the years went on, they've increased runner numbers and the events available. Runners can now choose from 10k, 25k and 50k courses.

In early June of this year, 662 runners from 23 states convened on a warm summer day to test their mettle in what has been named by one running website as Best Trail Race in the Southern Region for the last four years. Not only does it attract runners from all over the country to get an up-close look at the beautiful views around Beaver Lake, but it also provides a nice bit of income for the club. For the last few years, the total donation split between Rogers Lions Club and Friends of Hobbs State Park has hovered around \$13,000.

Organizers say the trails at Hobbs are perfect for both first-time trail racers and vets racing for time, because they are not too technical or steep. Ages of registrants this year ranged from nine to 74 years old.

For more information, check their website at <http://www.wareagletrailraces.com/> or follow them on Facebook.

NOTES AND NEWS FROM OUR SERVICE PARTNERS

World Services for the Blind request capital contributions

The mission of World Services for the Blind is to empower people who are blind and visually impaired to achieve sustainable independence. By offering life skills and career training programs in one location, WSB is the most comprehensive rehabilitation center for people who are blind or visually impaired. This approach allows students to receive services tailored specifically to their needs. From essential life skills that ensure an individual's ability to live independently, to technology based career-path programs designed to provide students with the knowledge and hands-on experience that will allow them to compete in today's high-tech jobs market, our programs put our students on the path to sustainable independence.

ABSTRACT

WSB has an immediate need for \$1.5 million to replace aging mechanical systems at its campus located at 2811 Fair Park Boulevard in Little Rock, Arkansas. A mechanical equipment engineering and energy savings assessment was conducted by Empirical Energy Solutions, LLC (EES) in spring 2018. EES performed a complete on-campus inspection of all systems, offered alternate system-replacement options, and obtained current cost bid estimates from Little Rock area contractors.

CHANGING LIVES

WSB was founded in Little Rock in 1947 through the initiative of several civic leaders and the statewide network of Lions Clubs. WSB's first major capital campaign in 1960 raised more than \$200,000 and assisted with the expansion and construction of the new building on the Fair Park campus. Most of the mechanical equipment that now needs replacement was installed at that time and WSB has maintained it for 50-plus years. Replacing the mechanical systems is the first essential step toward updating the facilities, equipment and campus.

Today, WSB has 42 residential students, eight online students and 60 youth program participants statewide. We also serve more than 200 older blind individuals to ensure they have the tools and techniques needed to age in place while dealing with a vision loss.

PROGRAMS & SERVICES

Independence means different things to different people. WSB's programs are designed to give clients the tools they need to lead the independent life they envision for themselves.

Life Skills: The Life Skills programs at WSB impact the lives of so many people who are blind or visually impaired, providing the tools necessary to reach each student's goal of independence. For a newly blinded person or someone who is slowly losing their sight, it is a way to learn "how to be blind." WSB supports all skill levels and will develop a program tailored to each student's needs.

Career Training: The unemployment rate among working-age blind adults is around 70 percent. WSB is committed to changing that through a tech-driven suite of Career Training programs. Students in Career Training programs may be new to the workforce, while others are seeking to completely change careers. Because WSB's programs are stackable—meaning they can easily be combined—students can customize their learning experience to fit their needs, whether the goal is a hands-on tech career, owning their own business or learning to teach others.

Youth Programs: WSB's recently expanded youth programs take a holistic approach to equipping a new generation with the tools they need to succeed both personally and professionally. Designed for students ages 14 to 22, the curriculum includes the College Prep Program, ACT Test Prep, Essential Work Place Skills Series and the Student Transition Youth Learning Experience Program.

ECONOMIC IMPACT

The 2008 financial crisis dealt a devastating blow to WSB. As state governments cut their budgets—including support for vocational rehabilitation services and other related expenses for potential WSB students—so did businesses across the country, and charitable donations decreased significantly across the board. According to a joint study by The Russell Sage Foundation and The Stanford Center on Poverty and Inequality (Reich, Rob & Wimer, Christopher. 2012. Charitable Giving and the Great Recession. Stanford, CA: Stanford Center on Poverty and Inequality), the financial crisis and subsequent recession "reduced total giving by 7.0% in 2008 and by another 6.2% in 2009. Although giving increased slightly in 2010 (1.3%) and 2011 (0.9%), it still remains well below the 2007 level."

The financial crisis reduced WSB's client census and funding to a quarter of historic levels. WSB struggled for survival for the

Continued next page

WSB from previous page

next five years. However, since 2014 WSB's student census and finances have stabilized and are improving year by year. Over the past three years WSB has transformed its programs and services through the adoption of new technologies and renewed relationships with state rehabilitation agencies and Lions Clubs throughout the United States, as well as other business partners.

WSB: THE NEXT 3 TO 5 YEARS

WSB has proven adept at adjusting to a continuously changing environment. We have embraced improvements in technology, new methods for educating and training people who are blind, new models of partnering with organizations in hometown communities to provide comprehensive blindness skills and to deliver on-line career and vocational training.

WSB will strengthen and continue to grow capacities for the residential program at the Fair Park campus because many people suffering from the consequences of vision loss do not have access to quality programs and services in their hometowns. WSB will expand exponentially our online offerings and partnering with other programs nationwide to expand our revenue base. WSB will continue to focus on adult blind persons who can rejoin the workforce, while expanding direct services to school districts throughout Arkansas. Moreover, WSB will also continue to expand programs and services for youth with vision loss and older individuals who are blind.

CONCLUSION

WSB has a dynamic executive team in place for delivery of quality programs and services. WSB's operating profile continues to strengthen and improve, but operating revenues are not enough to finance major capital improvements, such as the facility mechanical systems at the Fair Park campus. Capital contributions mean the difference between long-term success and the possibility of eventually discontinuing services.

We know you have many opportunities to fund worthy charitable institutions, and we greatly appreciate your considering WSB. We invite you to take a guided tour of our campus, where you will meet our dedicated staff, our committed and connected teachers—many of whom are blind or visually impaired—and our students, who are so excited with the training they are receiving. When you visit WSB, you'll share in the thrill in knowing that your contribution will dramatically change lives in a wonderful way!
