Dear Lions Club,

Thank you so much for coming again to Our Lady of Grace Preschool. I asked if I could share some news with you. Sarah is a student here at OLG. She is five years old. After receiving your report her mother brought her to get an eye exam. The eye doctor referred her to Riley Hospital. Sarah will be getting glasses this week. They also found that she had cornea scarring. The doctor told them that if this had not been caught it could have led to permanent damage.

I want to thank you from the bottom of my heart for making a difference in this child's life. God bless you.

Thank you for all you do.

Teri

Preschool Coordinator ☺
