

Alert Program

District Governor Earl, Fellow Lions and Guest

This is my second report to Cabinet

As of this writing a cursory review of the MDA Web Site revealed that there is no Alert Chairperson at that level.

In this regard the Plan of Action as outlined in the first report is been implemented.

As positive results come forth, they will be shared with Cabinet. We must also acknowledge that no response from the many different and diverse areas is a response to our requests. Only 50% 5 out of the 10 Districts under the MDA umbrella have an Alert position.

An easy program, for Clubs wishing to avail themselves to an Alert Banner Patch, would be to take the pandemic flu preparedness plan submitted in the first report and available thru the A-3 Web Site and modify same to their needs and that of their community.

Thank you

Josef Amann FICB
