As the new year begins, many of you have made many resolutions for a brighter new year. For some, losing weight or eating healthy is the new goal. To do so, it is great to understand your body and the way it works. A few pointers to choosing the right path are 1) speak with a dietician 2) set up some exercise models 3) find a way to share this journey, either journal or friend/family. By doing this, each step for change in your dietary and fitness lifestyle will be noted in your body's physique.

Tips: (ADA)

1. Find an activity you enjoy and limit late night aerobic activity to prevent nighttime lows.
2. Schedule approximately 150 min per week (approx. 30 min/day 5x/week)
 0. Short 10 min aerobic intervals work as well
 1. Dancing, swimming, cycling are great aerobic activities
3. Track your progress to help with setting right goals.
4. Keep track of glucose levels before, during and after activity to prevent hypoglycemia.

HOW CAN YOUR CLUB PARTICIPATE?

1. You, your fellow Club members, or friends can walk, jog, run, hop, or stroll.
2. Track the number of steps (you can use your fitness trackers).
3. Get pledges from club or community members (by number of steps or a donation).
4. Report to a designated club member who will keep tally of individual and club total steps and pledges (each club will appoint a LION TRACKER).

Master Gardeners are members of the local community who have interest in their lawns, trees, shrubs, flowers, and gardens. They are enthusiastic, willing to learn and to help others, and able to communicate with diverse groups of people. What really sets Master Gardeners apart from other home gardeners is their special training in horticulture. In exchange for their training, persons who become Master Gardeners contribute time as volunteers, working through their Extension office to provide horticultural-related information to their communities.

Introduction to Texas Tuesday Connection (TTC)

The Texas Tuesday Connections is a product from the North America Membership Initiative. The MD-2 GAT began the Texas Tuesday Connections series in April 2021 and because of the popularity and value the MD-2 GAT made the decision to continue through the 2021-2022 Lions Year. While we were excited to get this series up and running, we did make some “start-up” mistakes. First and foremost, we did not establish any goals or specific action plans. We just started...After a couple of months it was quite clear that we need to put some real structure into the process. We brought on more committee members and we also tried to develop a marketing plan, after the fact. While this was admirable, it was not realistic. Now that we have nearly 7 months of Texas Tuesday Connections under our collective belts, we are going to actually practice what we preach. During the last two months of 2021, the Texas Tuesday Connections will be on a sabbatical. During this sabbatical, we will conduct a SWOT analysis of the Texas Tuesday Connections and then develop the infrastructure, goals, guidelines and whatever else we discover from the SWOT.

Monthly sessions will be on the 1st & 3rd Tuesday of every month.

Thank you in advance for your continued help and support!

Effective Communication

Lions, you can find a useful module on effective communication on the LCI LEARN website. It's thorough and focuses on who, what, where, why, and when. Our TTC session will be different. We will talk about four key communication skills - 1) Becoming an engaged listener, 2) paying attention to nonverbal signals, 3) keeping stress in check and 4) asserting yourself. Please join us for a great conversation.

LCIF Campaign 100

Over the next three years through Campaign 100, we are aiming to raise US\$300 million to increase our service impact; fight diabetes; and expand our global causes. Campaign 100 will allow us to service more than 200 million individuals per year and ensure that Lions have the resources we need to expand our global causes and impact.

Campaign 100 will make it possible for LCIF to meet and address the needs and priorities of our Lions for generations to come.
