Ponderings of a District Governor

As I look through the years I have had the privilege of being a Lion, the memories that stand out in the forefront of my mind are the ones filled with laughter and fun. From the pancake suppers to directing parades, I have learned that we can have FUN while we serve, and when the community sees that, they'll want to join in!

As part of my initiative this year, I want to continue making club meetings FUN. I want to show that serving is FUN. But I can't make it fun without YOU. Each of you joining together is what makes Lions Club fun. When new recruits come, they'll see the joy in serving and community we have, and will want to join. When we work together and enjoy it, we are making a difference in more ways than one. So, let's get out there and have fun!

"The more we get together, the happier we'll be."
