

# V.O.I.C.E.S. Saving Kids Sight

Dear

The Lions Club wishes to inform you that it now has the capability of performing pediatric eye screenings of pre-school children, ages 6 months old through 6 years.

Members of our team have been trained in the use of the plusoptix Vision Screener and are available to perform screenings at your location or a Lions Club location. We can screen toddlers and infants starting at 6 months of age.

The vision screener we use is capable of screening for Astigmatism, Myopia, Hyperopia, Anisometropia, Strabismus and Amblyopia. The individual screening takes just a few seconds and is performed from a distance of about three feet. There is no physical contact with the child and no eye drops are administered. Our equipment provides a print-out of the results for each individual which is given to you for forwarding to the parent. We provide parent consent forms and cover letters for you to send to the parents prior to the screening date.

It is important to understand that this is only a screening and does not constitute an examination or diagnosis of vision problems.

This service is offered free of charge by your local Lions Club. If the children at your facility do not currently receive regular eye screenings, please contact me to discuss how and when we can provide this vital service.

I can be reached at

Sincerely yours,
