PDG John stated that the \$22.50 expense was for something other than vision screening supplies. Dennis will check with Bob Jacobs on this.

* Potential expense for referral to Pediatric Ophthalmologist

Dennis explained that the District may need to provide some financial assistance for a 2nd grade child with a specific retina problem that may require more support than what the local club can provide.

Screening Schedule (see back)

- Spring Grove to Shrewsbury transfer 4/13 to 4/14 - Becky and Wanda have worked out these arrangements

Listing of Day Care Centers (Glorianne) - No update provided

VisionCorp Partnership - Next Steps - Dennis will make contact and work to have procedures and forms in place to begin partnership screenings starting July 1, 2019

Baltimore Life Follow-up - It was reported that Baltimore Life contacts families after they provide them with the ID cards and tries to sell insurance. The committee agreed to make make clubs aware of this service offered by Baltimore Life if the screening is in an appropriate setting, such as community fair, touch-a-truck, or some other type of walk-up event. We do not want the Lions to be seen as endorsing this company.

VSP Certificates - Most Zone Chairs still have gift certificates, and they must be used by August 12, 2019. It was suggested that we make sure schools know the Lions have access to these certificates. We are redistributing certificates when a Zone Chair uses all of his/her certificates.

Other Items

- It was suggested that a District Newsletter article be drafted to highlight our screening numbers and to remind clubs about the VSP certificates. Dennis will do this.
- Dennis will resend the list of VSP providers to the committee members and Zone Chairs.
