## REPORTS

Report from IT & Data Support Chair Lion Dan W. Matthews September 11, 2016.

There has been little activity in my area.

There were 2 clubs having difficulty with entering signature activities. The main issue turned out to be the relocation of the menu for accessing the Signatures on the website.

Lion Lloyd has an issue when members try to distribute the newsletter to other groups. The issue is the maximum limit of addressees. There is a work around, however the folks that he is dealing with have limited computer experience. We are checking out the possibility of distributing the newsletter through the E-Clubhouse website.

There are still clubs lagging with their MMRs. I am in the process of making contact to determine the issue. Most clubs seem to have mastered the entry of activity reports.

Please be sure to contact me if you have problems entering or accessing 'stuff' from My LCI. If I don't hear from you, I can't help you.

Sept 11/2016

Our Club members along with you as Zone Chairs should be looking for areas that do not have a Club and look at starting a new Club in their area or even a branch Club with the intention that perhaps in a few years it may be able to turn into a full Club and be a great asset to the area.

Another area that I would like the Zone Chairs to look into is that in some Clubs we have multiple members of the same family living in the same household who are paying full membership fees. Why not have them converted to a family plan.

When it comes to our own Clubs, are we doing enough for our members? Is your Club all work no play? It is the general feeling of District management, including myself that perhaps we should be looking at doing things as a Club family which means socials, bowling, golf whatever is wanted and available in your area. By doing this perhaps you can entice more people to join, If you invite them to one of your fun nights they just might think it is a great idea and take you up on your offer to join. Nothing ventured nothing gained.

Zone Chairs, we need members everywhere. Let's see what we can do to entice people to join and most important of all, let's see if we can't keep what we have.

One last point I want to make, we need women members. Let's see if can convince some of the "hold out OLD BOYS" clubs that they need women in their group.

Eyewear Recycling Report (Sept 2016)

Over the past 4 months, many positive changes have taken place.

At present, I have shipped all eyewear that had been collected. Two shipments were required, to maintain a flow, as Bishops Falls required more eyewear, to maintain the interest that their facility, and our local facility in PE. Is now UP & RUNNING.

On May 3<sup>rd</sup> 2016, our first shipment of 27,200 pairs of eyewear was shipped from the Armour terminal in Moncton at 9:15 am. Destination was, PE Correctional Center. With the assistance of one Riverview Lions member, and a soon to be approved member, the task turned out to be a very enjoyable one.

Our second shipment was sent on August 18<sup>th</sup>. Destination was Bishops Falls NL.

To streamline the collection and shipping of all eyewear, Lion Doug Cook, of PE, has taken on the task of collection for the island. All shipping of eyewear is controlled by PCC Scott Mackenzie.

I am adding a positive item of interest.

Another update for your meeting this weekend - the glasses that we arranged to be sent from the CLERC to the

Global Brigades (university students doing vision screening in Honduras) have resulted in many persons there receiving glasses - our local Brigade from

**University of New Brunswick and Dalhousie University**

screened 227 patients over 3 days .

All is well & healthy in this wonderful service provided by the lions of District N1.

Respectively Submitted

## Reports PCC Susan Sangster

### Report to Cabinet – Portage Grant re Lewis Fitness Center

From the June 30<sup>th</sup> Report to LCIF Since the Sod Turning event, preparatory work commenced. NB Power have been on site to confirm the locations of the power lines before construction, stakes have been placed in the ground detailing the building location. The existing fitness equipment has been moved from the old gym to a storage container and the old gym and old trades buildings have been taken down. A Detailed Project Plans is being prepared and site clearing will commence shortly. We have, however, been made aware that we must comply with a new Green Building Policy intended to reduce significantly the energy use and greenhouse gas (GHG) emissions. This policy applies to all new construction and major renovation projects for organizations that receive any funding from the provincial government. This new policy will ensure that all new and renovated buildings that qualify will incorporate sustainable building practices into their planning, design, construction and operation. To comply with this policy, we are required to redefine the architectural design ensuring compliance. This had added an additional 2 to 3 weeks to our time line. At this time, we do not anticipate much delay in completion with a targeted construction start date of July 2016.

August 25, 2016 The construction trailer is onsite as well as equipment. Construction is scheduled to commence the first week of September. As of August 25, 2016 the amount outstanding remaining in the guarantee is \$11,534. Any funds available to help decrease this amount will be greatly appreciated. I am so very proud of all the Clubs in District N-1 who have stepped up to make this Project possible.

### Constitution and By-Laws

We will be looking at our legal documents and their contents to see if they work for us in 2017. If anyone has any year of minutes from the annual minutes and / or any of our legal documents since redistricting in 2007, I would appreciate having them emailed to me. Chair PCC Susan Sangster. Co-chairs Lion Dale Carter, Lion Desmond Nantes

International Relations      <http://members.lionsclubs.org/EN/serve/global-outreach/international-relations-chairperson.php>

International Assistance Grants (IAGs) enable Lions clubs in developed countries to partner with Lions clubs in lesser-developed regions on projects that make a real difference for communities. IAGs fund international assistance programs focused on basic health care, education and literacy, clean water and sanitation, rural development and self-sufficiency programs, services for people who are blind and otherwise disabled, and environmental protection. IAGs can also be considered for Lions' international medical missions and larger-scale Lions' eyeglass recycling centers that have a demonstrable impact on serving Lions in developing countries.

The International Assistance Grants program awards grants between US\$5,000 and US\$30,000 on a matching basis. The next deadline is October 7, 2016.

Lions Quest has a complete new program that is being produced with Canadian content. NB/PEI Director Susan Sangster
