

Good afternoon Fellow Lions,

Well believe it or not, with Halloween just behind us I can't help but think of candy, and when I think of candy, I think of Chocolate Bunnies. That's right - we are starting our Lions fund raising efforts to help the Lions Eye Institute meet our obligations to help cure and improve eye sight.

This year we are asking every Lions Club in our new District to please purchase at least one or more cases of Bunnies. We want to see you out in the community selling and spreading the word about all the great things that your Lions Club is doing. Next we want to see both your Club and the LEI make some profit to help fund those community efforts. Lastly, it will strengthen your club by having an opportunity to come together and do a great thing for others.

In case you do not feel that your club is up to the task of going out into your community to sell, please strongly consider using them as a community service project by donating a case or two to a local shelter, nursing home, children's medical facility or food pantry, spreading the act of kindness to others that are less fortunate than you and your members.

The Lions logo is on every box that will be distributed and will help spread the word that Lions Serve. We have enclosed the 2018 Flyer for your review. As indicated please have your decision made and order form returned to us by January 1, 2019 so we can place our Bunny order by end of year.

Please feel free to contact any member of the LEI board of Directors should you have any questions in this matter.

Yours in Lionism,

Lion Phil Klein
President
