

September 13, 2018

Dear Lions,

Hurricane Florence's winds and rains have begun to batter the Carolinas. It is warned the storm continues to widen - and is likely to linger along the coast for days. The storm will bring seawater surging onto land along with torrential downpours.

This storm could cause flash flooding, potential tornadoes and mudslides inland.

The Lions of North and South Carolina have come to our rescue in the past. Unfortunately, they are now in need of our help.

Please start to think of what your district and clubs can do to help. Contact your clubs and plant the seed that help will be needed.

K2's IPDG Sue Piccolo and her husband Lion Sal will be renting a truck, filling it with supplies and driving it to the Carolinas.

Districts can work together to collect/transport supplies. Or if your clubs/district would sooner send a check for supplies we can supply a name and address to send them to.

Thank you in advance for helping with this.

Please consider doing something to assist with this Disaster.

Please do not hesitate to contact me if you have any questions.

YIL,
DG Michele
