

MD27-E2 2021-2022 District Convention - Synopsis of Seminars

SERVANT LEADERSHIP

Servant leadership is about paying attention to the needs of people we intend to serve. It is our contention that healthy, positive, and aligned organizations like Lions are shaped by leaders and are seen by followers as being people of good character and virtue. The Servant Leadership workshop addresses not "what is new" but, instead, being reminded of what is true and always has been true - that people yearn to be part of healthy, right relationships

PROJECT NEW HOPE

Project New Hope is an organization (mostly Lions sponsored), that provides weekend retreats for combat veterans and their families. The weekend is free of cost to the participants. It includes counseling, camaraderie, and fun. The children are cared for with many fun, planned activities when the adults need their own time. The purpose is to address issues that combat vets and their families when they return from combat or a combat situation.

THE NATIONAL EAGLE CENTER

The National Eagle Center's Live Eagle Program is approximately 45 minutes to an hour in length and features a live eagle ambassador. Learn about eagle biology, ecology, natural history, and cultural connections in an engaging and entertaining presentation by one of our naturalist interpreters.

DIVERSITY & INCLUSION

Becoming the Club Of Choice – Want to belong to a club that is a great place for the members, one that prospective members ask to join, one that serves the needs of the community, and earns the respect and support of local business partners? If you want to learn the three key factors that will make you proud to be a Lion and invite new members to join you in service, then please come to this seminar. There will be cookies!
