

Environmental photos 1/25/2020

Lions MD 19 H Environmental Club Photos

Photos due by February 29th, 2020.

Our Multiple District 19 H requests photos from your club, showing club members involved in environmental projects, either underway or completed.

We wish to show & share how each of our clubs & zones participates environmentally within their communities.

Lions Multiple District 19 H is by far the most beautiful Lions District with British Columbia & Washington State. Yet each zone has something special to offer in the way of environmental opportunities.

Can you join the fun? Will you send me those club photos? Will you participate in our Family Reunion this March?

Join me by participating in our district photo contest.

Here's how it's done. Take a photo!

Capture your club member involved in your environmental project. Fun photos, group photos, projects underway & or completed photos. Just gather your Lions member, snap & capture then email it off to me.

jonesatterberry@hometown.com

Photos will be displayed at our Family Reunion Spring conference.

OK, send them in, I'm waiting

Thank you
