19H-2

Zone news you can use.

Jones Atterberry – Zone Chair 2022-23

September was a busy month for 19H-2 Lions. Projects, soccer tournaments, campouts, park cleanup, spreading bark; you name it we did it.

I had the opportunity to make my official visit to Sedro-Woolley & Concrete Lions before my official visits with District Gov. Steven Wong in November. I always come away with gratitude for the accomplishments our clubs provide their communities.

This year as Zone Chair, I wished to bring special attention to Lions International five core global causes. Those projects are Hunger, Childhood Cancer, Environment, Vision & Diabetes. Each one deserves our complete endorsement and commitment to help solve locally. We can, and hopefully each club will continue to work to provide information for our communities to help solve these life-changing diseases, hunger, or man-made problems. I will award five pins, one for each category to the members deserving the recognition named by the club President & Secretary. Thank you clubs for helping me honor your members.

Please send me those names of your Pin winning members.

District Governor's visit to Mount Vernon Lions
10/6/2022

Scoop of the Day

District Governor Steven Wong will be visiting Concrete Lions on Nov. 2, & in November & Sedro-Woolley on November 7, 2022. DG Steven has a wonderful message.

I encourage every club member to be on hand to participate at this meeting.

District Governor Steven made a special trip to Mount Vernon last week. I asked the Mount Vernon Club if they would change their official visit their official to October. They said yes. DG Steven said October 6th worked, everyone made that happen. You see, TOGETHER WE CAN. Working together is a sure-fire way to accomplish even more. Our 19H-2 clubs do so much; it but together we can double, or triple the effect. Our history is working together.

Let us find more ways to bring our clubs together.
