

Sedro-Woolley Lions Newsletter

October 28, 2023

Hello Fellow Lions!

As I write this newsletter I still feel sadness in the passing of Lion Gus. He served his community as a Lion in Sedro-Woolley for 58 years. We had a moment to share memories of Lion Gus with his family at our last meeting when they attended the meeting to tell us that their family will be volunteering with at the parade and other events as Lion Gus had wished them to do. They have a desire to have donations in his memory go to a vocational scholarship. Lion Gus will be missed by many Lions within our club and throughout our Zone.

Our District Governor will visit on November 6th and we plan to have a pizza party! I will open the doors by 5:45 pm so we can eat and still start the meeting on time. Please plan to arrive a little bit early. We will have our Lions Foundation meeting right after the regular meeting.

November is National Diabetes Awareness month. Lions have asked the Library display books for all ages about Diabetes and nutrition during this month. Our Lions club will have some of our bookmarks available for anyone to take as way to bring awareness about Diabetes. Stop by and check it out. Have you had a blood sugar or A1c test done recently?

Yours in Lions service,

PZC Lion Carol Torset, Secretary
