tap vector. Vector illustration. Use harvested rainwater for washing vehicles and equipment. Waste water treatment concept for reuse Try different keywords rainwater harvesting Red rubber boots for work in the garden, vegetable garden. Green water droplet with looped arrow. Linear black and RGB color styles. Rain protection 3D Isometric Flat Vector Conceptual Illustration of Rainwater Harvesting Rainwater harvesting flat line icon. Hose. Autumn season, gardening line icon Autumn season, gardening vector icon Try different keywords farmer Mushroom on rain, illustration, vector on white background Harvest icon from smart farm collection. Rainwater Harvesting System In AutoCAD File it includes floor details, sectional elevation, plinth protection detail. Water tank on white background. Water tank vector. Harvesting rain water simple filled line drawing House with air source heat pump and solar water heater as source for heating to radiators and photovoltaic panels as source of electric energy and wind turbines as source for electric energy and geothermal heat pump with rainwater harvesting system Hand holding big drop of water conserve or save water concept. Vector illustration include icon - barrel, stainless steel reservoir, liquid drainage outline pictogram for water recycling. Think conserve water. Vector illustration. Rain typographic design with hand harvesting raindrops. Black thin linear pictogram for aqua save Try different keywords landscaping logo Rainwater harvesting hand, collection and storage of rain cloud drops Water tank vector. Catching and storing rainwater from rooftops ('rooftwater harvesting') is a proven technique which can provide a safe source of (drinking) water. Water tank on white background. Try different keywords line art icons Rain on the water Water tank vector. Harvesting rain water. character vector Water drop icon. Vector illustration outline flat design style. Illustration of an upside down umbrella exposed to rain. Rainfall collection. Includes Barrier, Bucket, Hanger And Other Symbols. Based on the monthly water availability and demand, the tool will determine the optimum tank size and will also give information on the expected reliability of the water supply system. Vector illustration. Rainwater harvesting efficiency. free space for text. Mascot character of water drop as a farmer Rainwater harvesting flat line icon. The results are presented in a simple way so they can be used in for example project proposals or reports. 3D rain water recycling cutout craft design in recycled paper background. Recycling rainwater RGB color icon. Vector isolated outline drawing Raindrops falling on the top of umbrellas of many colours Recycling rainwater icon. Hose. Harvest icon vector from smart farm collection. Rain harvesting concept. If you have questions, suggestions or if you would like more information on the SamSam Water Rainwater Harvesting Tool please contact us. Thin line harvest outline icon illustration. Harvest icon vector from smart farm collection. Business infographic template. 3D rain water recycling cutout craft design in recycled paper speech bubble background. Raindrops falling on the top of umbrellas of many colours Recycling rainwater gradient linear vector icon. Rainwater harvest concept. tap vector. Water tank vector. The rain water harvesting tool will help consumers, engineers and NGO's to determine or check the optimum dimensions of a rainwater harvesting system. Category: DWG Blocks CAD Blocks & CAD Model Sub Category: Sanitary Ware CAD Blocks & CAD Model Eiz Luna New-Zealand SamSam Water launches the Rainwater Harvesting Tool. free space for text. Water tank vector. 64x64 Pixel Perfect, Editable Stroke Rainwater harvesting woman, RWH icon, collection and storage of rain Rainwater rooftop harvesting system, collecting rain run-off in barrel Rain word separated from spelling of drain, bracketed in funnel outline, as a gimmick of rainwater harvesting. Reserving clean water for agricultural purposes. Vector outline illustration of barrel, cloud and rain. Water conservation concept. water tank on white background. Pure water drop logo Water tank vector. Diagram of a classic colonial house with rainwater harvesting system Diagram of a classic colonial house with rainwater harvesting system House with air source heat pump and solar water heater as source for heating to radiators and photovoltaic panels as source of electric energy and wind turbines as source for electric energy and geothermal heat pump with rainwater harvesting system Rainwater harvesting papercut illustration concept with green plant leaves growing inside cloud. The Rainwater Harvesting Tool is a free online tool enabling everybody to easily calculate the optimal dimensions of a rain water harvesting tank for any location worldwide. Simple line Harvest icon for templates, web design and infographics. Water tank vector. wallpaper. Vector illustration. Use harvested rainwater for a sink. Vector Save drops collect icon in solid style. The house apply hydrologic system harvesting water rain in a tank to be recycle home living reduce using soil water modern flat color Water tank vector. Thin line color symbols. Finally, by entering the number of people using the system the water demand is calculated. Beautiful Design Elements. Thin line harvest outline icon illustration. Water tank vector. Green Color, Editable Stroke Photos only rain water harvesting Rainwater harvesting line icons. Concept for rain water harvesting Simple vector illustration rain water harvesting Simple vector illustration rain water harvesting Harvesting rain water icon Rainwater harvesting papercut web banner illustration concept with green plant leaves growing inside cloud. 3D rain water recycling cutout craft design in recycled paper background. Rainwater droplet harvesting to colorful umbrella Water tank vector. Vector illustration. Water cycle with drop icon as a gimmick. Hose. Use harvested rainwater for wash basin. Vector illustration. Potato head cartoon holding an umbrella illustration. Visit or download the free app from the Google Play store (. Thin line harvest outline icon illustration. Isolated vector illustrations Harvest icon vector from miscellaneous collection. Water tank on Truck vector. Water tank on white background. Collecting run-off for storing and usage. Collecting rainfall from roof and storing in tanks. tap vector. Little rabbit and carrot field Search for Videos rain water harvesting Downspout Nose, vintage engraving Little rabbit and cabbage field Rain water harvesting reuse water icon in outline style Rain water harvesting reuse save water icon in filled-outline style Rain water harvesting reuse save water icon in outline style Illustration of rain water is collecting in a bucket. Based on your location, the available monthly rainfall is retrieved from a worldwide meteorological database. Vector outline illustration of house and water tank. Water tank on white background. Rainwater harvesting man, RWH icon, collection and storage of rain Rainwater harvesting woman, RWH icon, collection and storage of rain Rainwater harvesting hand, collection and storage of rain Rainwater harvesting man, RWH icon, collection and storage of rain Use harvested rainwater for washing garden tools. Thin line harvest outline icon illustration. Seamless water Droplets Harvest rain water for reuse icon. Different forms of water. Waste water treatment concept for reuse Set Cloud with rain, Farm house and Smart farm drone. By entering the size of the roof (or drawing the roof on a map) and the type of roofing material the tool determines the amount of water that can be harvested. Outline, thin line harvest icon for website design and mobile, app development Rainwater rooftop harvesting downspout system, from the house into barrel Water tank vector. Water tank on Truck vector. Harvest icon from garden collection. green colorful hand protecting conserving saving recycling harvesting water - illustration art Rainwater harvesting as water resource accumulation for home outline concept Rainwater harvesting line icons. tap vector. Greywater recycling and reuse at home with wastewater treatment tank and raining icon as a gimmick. Isolated vector illustration Water tank vector. Vector illustration. Use harvested rainwater for washing machine. Collecting rainfall and storing in tanks. Hose. Try different keywords farm set Water tank vector. In four easy steps you can calculate the optimum size of a rain water harvesting tank for your home, school or nursery. Despite it being a commonly practiced method, many tanks (reservoirs) of roof water harvesting systems are over- or under-dimensioned, making the system unnecessary expensive or providing insufficient water. Rain is renewable, valuable and sustainable resource. Isolated vector illustration. Log in to explore May offers Rainwater harvesting papercut illustration concept with green plant leaves growing inside cloud. Blue rain water drips in water drop symbol Drops with leafes Agriculture and Farm Vector Icons Set Set Of 9 Garden Icons. Hose. Water tank vector. Vector illustration. Use harvested rainwater for flushing toilet. Hose. Rainbow umbrella saving water campaign illustration vector concept. Vector illustration. Try different keywords gardening tools art Rain typographic design with hand gathering drops and rainwater draining to the funnel as a harvesting gimmick. Cutting water bills. Modern style pictogram. Concept for rain water harvesting 3D Isometric Flat Vector Conceptual Illustration of Rainwater Harvesting Harvest rainwater RGB color icon. Vector illustration. Black thin linear pictogram for water collecting Water drop icon.

Access Agriculture is a non-profit organisation that supports organic farming and agroecology. We enable global and local access to quality training videos in local languages. The primary topics that we consider are the following:

- Farm-level and regional water management
- Crop water relations, crop yields and water productivity
- Irrigation, drainage, and salinity in cultivated areas
- Salinity management and strategies for improving the use of saline water in agriculture
- Rainwater harvesting and crop ...
