

# S2 - Sight and Hearing Committee Report

## November 2025

Lions, I plea to you for service help in managing Sight and Hearing activities in OH5. There are many requests for assistance to research and refer to local Lions Clubs. In addition, there are requests that are significant and beyond the needs of one Lions Club, such as a school in Hilliard that wants professional eye testing for students. There is a need for more support in the area of hearing aids. And there is a need to have multiple Lions review OH5 Eye Care requests. I need the help of 3-4 Lions to manage these service needs. Will you find Lions to help? Will you help?

Three requests for eyeglass assistance have been received and referred to nearby Lions Clubs. A request for mobility assistance for a newly impacted individual has been referred to Pilot Dogs; they accepted the individual and are enrolling him in classes. There are several requests that need to be addressed.

The Sight and Hearing Committee met on Monday October 27 via Zoom. I shared that Newsreel Inc. has ceased operations and so the Committee should not allocate money to that agency. I promoted an alignment of funds so that all remaining agencies receive similar funding. This was accepted by the Council of Governors on November 1<sup>st</sup>.

Yours in Service,

PDG Dave Luttrell
