

**OH5 Eye Care Fund Advisory Committee**

**August 2019**

**Governor Jackie Christensen,**

The OH5 Eye Care Fund only received one request for funding since February 2019. It was for assistance with a co-pay for a laser treatment after cataract surgery and it came in after the treatment. It was for a lady in the Bexley area and was paid for by a Bexley member (\$225). We, with the assistance of the Bexley member, were able to make arrangements to pay for this treatment with the surgery site and have the Bexley member's payment reversed. We have told the lady that the application for the second eye's treatment must be submitted for review prior to the scheduling of the surgery.
