

Report D-2DS – February 16, 2019

Ad Hoc Committee on Diabetes Screening

Committee Chair: Jane Jarrow, Tri-Village

Lions Helen Pestal – New Albany

Lions^L_{SEP} Bille Pfeifer – North Hampton

Lions^L_{SEP} Judy Schomaker – Worthington Noon Lions

Due to a series of health issues and distractions, no significant progress has been made in putting this project into action, to date.

There were materials posted to the District website for use by clubs who were planning activities in conjunction with World Diabetes Day. Several clubs in Zone 5 participated in some activity, and there may have been others.

To date, four clubs have received diabetes screening kits for their ongoing use – Sunbury, New Albany, Worthington Noon, and Tri-Village.

Unfortunately, the CODA grant that provided support for screening by clubs inside Franklin County has expired, so even the clubs within Franklin County will need support from the apportioned (District) funds if they are to continue to pursue diabetes screening in their communities. CODA is still prepared to help provide training and support for our efforts.

An updated proposal on the use of funds approved for this project will be submitted in the near future.
