

**OH5 Eye Care Fund Advisory Committee**

**February 16, 2019**

**Governor Mike Kerek,**

I am pleased to report that we have now finalized the Beverly Sue Ford request for assistance with co-pays for her cataract surgeries. She now has 20/25 vision and can begin her quest for employment. I received an email from Beverly thanking the committee for their assistance and told us that she has a potential part time job.

We finally got to close the Amanda Goff request for help in securing an eVision device. Our \$3,000 grant plus another corporate grant of \$3,450 allowed her to get the unit. eVision reduced the price of the device from \$10,000 to \$6,450.

I have not received any additional requests for help.
