RE: Zone 2 Report

November 9, 2020

District Governor Jason,

My clubs are trying to stay as active as they can during this challenging time. Some have diversified into new meeting locations and changed or added projects. They need encouragement and, sometimes, some ideas that other clubs have tried to do. Below is what each has done so far.

#### Mechanicsburg

They have purchased 10 eyeglass boxes from LCI and have them out in the public. They have funded a food pantry to assist in purchasing a new freezer. They have had a long standing community project in that they put up Christmas lights in the parks. They meet at a new location.

#### North Hampton

This club changed/added a project. For many years they have had a street fair. They changed to a golf outing. They made almost \$13,000, and got 3 prospective new members. They provide food to a food pantry on an ongoing basis.

#### Northridge

They had a fall carnation sale recently and will begin Christmas tree sales in a week or two. They recently gave \$250 to a food pantry in Springfield.

#### Saint Paris

They have purchased a pair of eyeglasses and have donated staples, such as toilet paper and paper towels, to a food pantry. They have purchased a new freezer for the food pantry.

#### Springfield National Trails

A newer, small club. They also have taken boxes of food to the food pantry. They have tried new places to meet as a club. We are working with them to be more visible.

#### Urbana

This club meets every week. They have a new meeting place and decided to have a 'just for fun' event for all club members. They have had a community clean up at a local park. They are very active and are working hard, as are all clubs.

#### Woodstock

They are having a fish fry on Saturday, November 14th. They have planted 30 trees in a local cemetery. They are a +3 in members.
