Math circus dvd

Math Circus is the fourth video in the LeapFrog series. It came out on November 24th, 2004 by Warner Home Video both on VHS and DVD. The story is about Professor Quigley invitin' Leap, Lily and Tad to the Math Factory as they wear springy shoes. Mr. Websley is spyin' on them and decidin' to write a math book. The teacher shows th Frog Kids numbers from 0 to 10. Then, they see block-creatures called Quidgets which help with counting and knowing how many of somethin'. M*A*T*H*S Circus offers a diverse range of engaging math games, varied difficulty levels, and exceptional educational value, making it an essential purchase for parents seeking a reliable math title as well as gamers looking to challenge their minds occasionally. The revised edition from early 1997 features enhanced graphics and sound effects in Windows 3.1/95 compatibility, along with accessibility support for players with disabilities.
