Criminal case game app download. Which is the best criminal case game. What is criminal case game. Criminal case game cheat codes.

Softonic review Criminal Case is a hidden objects game that is free to play and is already popular with millions of gamers around the world. Unlike many games of this genre it features an interesting storyline and a large cast of quirky characters that are sure to keep gamers coming back for more. Find the Hidden Objects to Solve the Case The action takes place in the city of Grimsborough where gruesome murders often take place. Gamers take on the role of a new detective who is charged with solving the murders by finding a series of clues that have been left in various different rooms. The levels have been divided into cases and each case has a different storyline and nine different scenes. Instead of simply being about finding hidden objects there are different types of puzzles thrown into the mix. Could You Make a Top Detective? Hidden object game lovers are sure to have fun with Criminal Case and the different types of games that are thrown into the mix helps to keep the game play fresh and interesting. There are lots of add-ons that can be purchased to help gamers advance more quickly and although these can be rather irritating gamers still have the option to ignore them and continue playing for free. Author's review Join the Police of Grimsborough to solve a series of brutal murders in this captivating hidden object, adventure game! Investigate crime scenes for clues, interview witnesses and suspects, and carefully analyze evidence to catch the killers! Run Criminal Case directly from your desktop or start menu. 1 click and you can start play the game. This is the only desktop version that will allow you to run the game from desktop without any installation. Engaging storylines Richly varied game play Detailed and very colourful scenes Advancing through the game can be slow at first Pressure to make in game purchases Criminal Case for Android Criminal Case for iPhone Criminal Case for Web Apps Join the Police of Grimsborough once again to solve a series of murder cases in this captivating hidden object, adventure game. Investigate crime scenes for clues, bring the suspects in for questioning and analyze evidence to catch the killers. Are you ready to prove your detective skills? FEATURES: • Investigate brand new crime scenes and discover the dark side of Grimsborough • Examine clues and analyze samples to look for evidence • Interrogate witnesses and suspects • Bring the killer to justice • Works on iPhone 5 and above and on all iPads • iPod Touch 4th generation devices are currently not supported PLEASE NOTE – Criminal Case: The Conspiracy is completely free to play, however some game items can also be purchased for real money. If you don't want to use this feature, please disable in-app purchases in your device's settings. Under our Terms of Use and Privacy Policy, you must be at least 13 years old to play or download Criminal Case: The Conspiracy Terms of Use: Policy: is a weekly subscription service that allows you to increase your energy bar to 170 and enjoy an advertising free experience. Pizza costs 2.99 USD/week (or local equivalent) and will be charged on your iTunes Account after the 3 days free trial and when the subscription renews weekly. Subscription will renew automatically unless auto-renew is turned off at least 24-hours before the end of the current period. Sep 12, 2021 Version 1.38.2 Bug fixes and performance improvements. I really don't have a problem with the ads...because A) the game is free and B) I've played the other games in this series so there are no surprises. I've gotten used to the time things take to complete. The character dialog is cheesy as it's always been but that's part of the charm. These games are clearly a money grab but if you can look past all that, it's fun. I try not to complain about something that's free. If it bugs you that much, don't download it or better yet, pay the 7.99 and earn the right to complain. I personally hate the Freemium format. I'd much rather pay a set price and just play the game... These are wonderful games. More like novels! But the key is to get all of them! (there are currently five) and when you run out of stars to move forward just switch games. I am retired and these are my go to games on my iPhone. I paid to get rid of those annoying ads, and I sometimes pay to fast forward to the next level in a game (99 cents). You can watch ads to get more energy or not. No need to spend a lot of money! These are fantastic games. Graphics, story lines, characters, all are done to a T. Highly recommend them! They are all equally good! I have enjoyed this game for many years. I first started playing the game on an old laptop I had and then when it crashed I went to an iPad. I like the ability to be able to trash the last games I played thus being able to save room on my iPad. Do wish I could do that with other games. Even though I have played this game for many years I have never bought extra energy. I either watch the videos or I figure it is time for me to take a break and do something else. Work crime scenes for clues, interview witnesses and suspects, and carefully analyze evidence to catch the true killers. \* —Original app description [1] Criminal Case (frequently abbreviated to "CC") is an adventure, hidden object and puzzle video game developed and published by Pretty Simple. It was first released for Facebook on November 15, 2012; ports for iOS and Android devices followed in 2014 and 2015, respectively. Criminal Case has been cited as one of the most popular and addictive Facebook games ever since the start of 2013, and currently has over one million monthly active users. On December 9, 2013, it was crowned the Facebook Game of the Year 2013.[2] Gameplay The player acts as a detective to solve murder cases and advance through the game's story. Crime scene investigation is a key gameplay feature in Criminal Case. The player must locate relevant clues at crime scenes by clicking items in the scene. Greater scores are awarded for finishing the scene quickly; the player earns stars that can later be used as a type of currency for performing necessary tasks such as examining evidence and questioning suspects. During this process, the player will also come across necessary autopsies and analyses that may take a few real-life hours to complete. Furthermore, as the player progresses through each case, they acquire clues as to who the victim was, how they were killed, and what relation they had with the case's suspects. At the conclusion of every case, the player is then presented with all the suspects and must arrest the one who fulfills each of the criteria gained throughout the investigation. If the decision is correct, the case is solved. In order to unlock the next case, however, the player is also required to complete the solved case's post-indictment chapter, enabling the player to receive reports and finally move on to the succeeding case—though this procedure does not have to be undertaken in any of the tutorial cases. Past cases may additionally be revisited (and even replayed) at any time to grant four rewards. A forensic mini-game in progress. While investigating cases, the player must also go through a variety of puzzle elements, such as puzzle-style hidden object scenes that must be unscrambled and few simple click-and-drag activities to break up the player's routine, like shuffling through various items, restoring torn or broken items and deciphering numbers, names or locked items. Other gameplay features include: customizing the player-avator; purchasing pets for extra rewards, like boosting up the final score of a crime scene; utilizing power-ups such as boosters and snacks; obtaining collectible like cards; and unlocking trophies. There are also various progression features integrated into the game, the most noteworthy ones being levels and ranks. Like many other Facebook games, Criminal Case incorporates an energy system, which is used to engage in crime scene investigations. The game is primarily a single-player affair, but it does involve a number of social features. Each crime scene has a leaderboard, for example, and the player may choose a "partner" from their list of "teammates" (friends who also play Criminal Case and are "recruited" to the player's team) to join the investigation of each scene and provide hint bonuses. Teammates mainly help to accumulate a higher amount of energy points (by sending them out to the player)—allowing a faster progression. Synopsis Setting During the first season of the game, the player investigates murders in the fictional city of Grimsborough, which is heavily based on New York City. Grimsborough consists of six districts: Industrial Area, Financial Center, Historical Center, University, Maple Heights, and Airport. In the second season, the player is moved to Pacific Bay, a fictional city based primarily on Los Angeles, California. Pacific Bay is divided into ten districts: Ocean Shore, Bayou Bleu, Inner City, Jazz Town, White Peaks, Ivywood Hills, Rhine Canyon, Innovation Valley, Paradise City, and The Wastes. In the course of the third season, labelled as World Edition and/or Save the World!, the player is assigned the task to solve crimes in different parts of the world—that is, real-world continents and regions, namely Europe, Sahara Region, Eurasia, South Asia, East Asia, Oceania, Africa, South America, and North America. Throughout the fourth season, Mysteries of the Past, the player is required to investigate murders across the fictional city of Concordia in the United States. A Victorian city in the late 19th century, it is composed of ten districts: New Haven, Elysium Fields, Century Mile, Sinner's End, Coyote Gorge, Crimson Banks, Wolf Street, Grim Chapel, Ivory Hill, and Capitol Peak. The fifth season, named as The Conspiracy, is set once again in Grimsborough, and back in the present day following the events of the third season. The new rendition of Grimsborough is made up of ten districts: Fairview, Money Mile, The Greens, Old Town, Maple Heights, Misty Grove, University, Spring Fields, Airport, and Newmark. Throughout the sixth season, called Travel in Time, the player is assigned to solve murders across seven time periods, namely Ancient Times, The 1960s, Renaissance, Altered Present, Age of Sail, Medieval Asia, and The End. During the seventh season, titled Supernatural Investigations, the player is tasked to solve mainly murders related to the supernatural across six general regions of the United States: West, Southwest, The Rockies, Midwest, East, and South. The eighth and final season, known as City of Romance or Paris: City of Romance, the player is tasked to solve murders across six districts of Paris, France, including Fantasy, Attraction, Obsession, Jealousy, Separation, and Engagement. Characters Main article: Characters Plot The game begins with the silent protagonist—a rookie cop whose basic identity corresponds to the player's specified name and gender—pursuing a career with the Grimsborough Police Department. Partnered with David Jones, the protagonist soon earns a reputation for solving difficult cases, and eventually succeeds in putting an end to the notorious secret society held responsible for much of the heinous crimes in the city throughout the years. The protagonist is then landed a promotion into the Pacific Bay Police Department. Now working alongside Amy Young and Frank Knight, the protagonist unfolds crimes even more sinister than the ones in Grimsborough, only to know that a mad scientist is behind the scenes of the high crime rates in Pacific Bay. With great difficulty, the protagonist ultimately restores peace back to the city. After the Chief of Police states that Pacific Bay has to start anew with lower crime rates, Jack Archer—elite force agent of the Bureau—offers the protagonist a job at said international police force, which also happens to be the world's top agency. The protagonist accepts. Partnered not only with Jack, but also Carmen Martinez and, for a short while, Michelle Zuria, the protagonist is tasked with investigating crimes all over the world as part of the Bureau, which was formed to fight against an international crime organization called SOMBRA. After chasing them all over the globe, the Bureau is finally able to bring SOMBRA down, but not without the sacrifice of Armand Dupont, who, on his deathbed, entrusts his great-grandfather's notebook to the protagonist. As Jack reads the adventures laid out in the notebook, the protagonist is immersed in the story of the 19th century city of Concordia, where the Concordian Flying Squad operates. The protagonist gets partnered with Maddie O'Malley and Isaac Bontemps as they uncover crimes all over the city. The Squad brings down a corrupt police department, two feuding gangs, and a wealthy but corrupt family as an ambitious, justice-driven district attorney rises up the ranks to ultimately become the city's mayor. The Squad then actively resists his oppressive regime before bringing him down and bringing true justice into the city. After the protagonist finishes reading the journal, they go back to Grimsborough, where a mysterious object from the sky crash-landed one year earlier. The protagonist gets back in the Grimsborough Police Department and partners up with Jones and the newly-recruited Gloria Hayes to unravel crimes all around the now-restructured city, especially those committed by a university-originated secret criminal group and their affiliates. Eventually, the team defeat said group's mastermind-turned-greatest enemy and the army of invincible humanoid she had created out of her desire for the enhancement of the human race, stopping the city's destruction in the process. Five and a half months later, Jack—coming from the year 2029—once again recruits the player in T.I.M.E., an elite police force, this time spanning the world across both space and time. The player accepts the offer, traveling across various time periods to solve historical murders and preserve history with their partners, Jack himself and Zara Tien. After traveling to 47 BCE, T.I.M.E. finds itself stranded in the past, eventually discovering that they have been sabotaged by an ambitious family who had used time travel technology to take over as tyrannical world leaders. Trying to undo their alterations to the past, the team eventually decide to travel to their starting point at 47 BCE, where the actions of their remorseful saboteur return the timeline to normal. After ensuring the preservation of the normal timeline, the player returns to 2019 and accepts a position on Jacob Arrol's team of Supernatural Hunters, who travel across the United States to investigate supernatural events that cannot be comprehended by conventional law enforcement agencies. Solving crimes with supernatural elements along the way alongside Gwen Harper and Luke Fernandez, the player encounters a legion of demons who wish to free their encaged Queen, who wishes to tear down the veil and release the demon hordes, transforming the Earth into a new Netherworld. While their plans almost come into fruition, the team is able to kill the Queen once and for all with the help of a human specifically created to subdue her. Two months after the demon queen's defeat, with supernatural crime rates dropping, the player travels to Paris. They eventually join the Parisian Police Squad along with fellow American police officer Carrie James (from Los Angeles). They, Carrie, and Hugo Mercier then investigate various murders around the city of romance on top of uncovering various crimes connected to a notorious Parisian mobster and a dating application's CEO. Here, the player's story is concluded, with some of the player's former partners attending a wedding, where they then thank the player for all the memories. Popularity Criminal Case quickly gained popularity, securing more than ten million monthly active users by mid-2013, and becoming highly competitive with Candy Crush Saga, one of the most popular games on Facebook. On December 9, 2013, Criminal Case won the Facebook Game of the Year 2013 award.[3] The game has a 40-percent share of Facebook users.[4] Some reasons cited for the game's success include its graphic crime scenes and meaningful narratives.[5] On July 15, 2014, the game's official Facebook app page reached a milestone of 50 million "likes". App separation Criminal Case: Pacific Bay On February 15, 2017, Pretty Simple announced the official worldwide launch of Criminal Case: Pacific Bay, available for play on Facebook and mobile devices as an independent app featuring all of the Pacific Bay cases (and other related content) existing in the original game, as well as an exclusive introductory case named Welcome to Pacific Bay. Other noticeable in-game differences include a tweaked color scheme and design, updated soundtrack, and a number of new customization options for the player-avator. Criminal Case: Save the World On June 27, 2017, a standalone app for World Edition, subtitled Save the World (or Save the World!), was officially released for Facebook and mobile devices worldwide. Similar to Criminal Case: Pacific Bay, it also includes updated visuals and audio, new avator items, and a new case called The Murder of Amanda Love. Criminal Case: Mysteries of the Past On February 22, 2018, Criminal Case: Mysteries of the Past was officially released for Facebook and mobile devices worldwide. Like its predecessors, it acts as a standalone app for the Mysteries of the Past portion of the game, and includes updated visuals and audio, new avator items, and a new case called The Murder of Mrs Stanbury. Criminal Case: The Conspiracy After a French-only release on December 7th 2018, Criminal Case: The Conspiracy was officially released for mobile devices worldwide on February 19, 2019 and for Facebook worldwide two days later. Once again, it acts as a standalone app for the fifth season of the game, and includes updated visuals and audio, new avator items, and a new case called The Dead and the Beautiful. Criminal Case: Travel in Time After a French-only release on October 28th 2019, Criminal Case: Travel in Time was officially released for mobile devices worldwide on June 9th, 2020 and for Facebook worldwide two days later. Once again, it acts as a standalone app for the sixth season of the game, and includes new gameplay, updated visuals and audio, new avator items, and a new case called The Murder of Napoleon. Investigating crime scenes in the Travel in Time app involves entirely new gameplay. There is no more set number of points in order to gain a star; instead, completing the scene's task (which progresses in difficulty with each star and case) within the given amount of time (60 or 120 seconds) awards the player with a star. Points gained from the investigation now only matter if one wants to reach a high score. Meanwhile, failure to complete the task reaps no rewards. Due to this change, each crime scene now has up to 10 stars (for a total of 90 per case), and each task now requires 2 stars to complete. The "Time Attack" bonus is no longer available, being replaced with a second "Puzzles" bonus scene. Furthermore, the system for boosters and partners has also changed (see Boosters § Criminal Case: Travel in Time and Hints § Criminal Case: Travel in Time for details). Criminal Case: Supernatural Investigations After a French-only release on September 24th 2020, Criminal Case: Supernatural Investigations was officially released for mobile devices worldwide on October 5th, 2020 and for Facebook worldwide two days later. Once again, it acts as a standalone app for the seventh season of the game, and includes slightly altered visuals from the original app, updated audio, new avator items, and a new case called The Murder of Edward Blake. Criminal Case: City of Romance After a French-only release on November 19th 2020, Criminal Case: City of Romance was officially released for mobile devices worldwide on November 25th, 2020 and for Facebook worldwide a day later. Once again, it acts as a standalone app for the eighth season of the game, and includes slightly altered visuals from the original app, updated audio, a revamped avatar shop with previous games' items, and a new case called The Murder of Emilie Bouton.
