Put the trousers with the belt in case, but let the legs exalted on the side. The so-called button handle (this is the bridge between fabric and pulsating a thread) must not be too short and must be wrapped in a durable way. If the buttons on the cracks of the sleeve are not defective and open and closed normally, these are indications of clothing of good quality. Here are the suggestions on how to choose a dress that makes you look mature: choose clothes with short jackets and are combining. These visually extend your legs and give you more contours. Three jackets and plaster and gessary also lengthens the upper part of the body- All three are high quality leather shoes that you should worry regularly. Do not cut the meter. Pass length: along the leg from the horse to the ground. Length on board: measured by the waist above the hip at the sole. SHIP SCRCURNATION: measure horizontally in the prominent part of the buttocks, near the body. To discover the correct size of a jacket, measuring the circumference of the chest is the most important thing to do. The same goes for the restricted restricted. Punta shirts damage to your body more volume. Put the tissue paper on the trousers and add another pair of pants. Close all the buttons only if a jacket is very wide. At best, this type of figure can afford to wear great checks. If you wear a tie, it should be a little large. Too much food, too much beer, too little exercise can lead to an out of shape body. Leave the head hanging it for about 15 minutes and use a cloth to dab the stains. Invest in special wooden hooks for your clothes. The material of a dress is generally a mix of cotton, polyester and Lycra. To correctly determine the size of the suit, it is necessary to measure the height (1), (2) of the chest, (3) circumference of the hip and (4) belt. It can keep the causes without wrinkles. What you should consider as regards the material of the suit usually consists consists And a jacket. Steam cleaning from time to time to refresh natural fabrics in a jacket is a good idea. To do this, simply turn on the water of the hot shower in a closed bathroom to produce steam. That's why it doesn't have to be a dress made. Are you not sure of the size of your suit? You are almost always 100 % safe if you buy a customized dress. (If you need help to find the adherent clothing shirt, this article is for you.) Standard Chartinternat dimensions. The classic shoes for the dress are the elegant black Oxford, the somewhat casual derby and brogue, which can be recognized by its typical lace model. We recommend a base set of three to four dresses in dark gray and dark blue, which you can combine with different shirts and ties. Wear only simple shirts under modeled clothes! The legs of the pants should be cut in such a way as to lie on the shoe with a fold. Short and Muscularis is probably the type of body more demanding to adapt to a dress. Many men try to hide their potbellic stomach under too wide clothes. It is a mistake because it makes that area even more thick. It is inappropriate to wear a wrinkled and frayed dress with work meetings and could make you look unscathed. In most cases it is a good idea to bring the suit into a professional dry washing service. The latter makes a more heavy man. It is better if your shirt is not evident at all. Stripes and controls add only additional volume. Together, he wears a handkerchief in a jacket - this directs attention from the stomach to the top of the body. The legs with a (impact?) The Premium fabric has minimal irregular distances between the seams. The buttons should be made with natural materials such as Buffalo's horn and the belasses must be moored by hand and well cut. Visit jackets, blazers and sports coats to find out more. Determine the length of the legs of the pants of a dress by measuring the internal part of each leg. We measure life, about 3 fingers wide, under the navel. It is necessary to hide the hip area and there are no counterbalances. In addition, take into consideration the purchase of a light dress especially for the hot days and an elegant tuxedo for evening holidays. A suit must be well maintained. They stretch the upper body again thanks to their deep neckline and make the person seem more thin. The neckline is more small and the upper part of the body seems more voluminous than with a two buttons jacket. The fins are tabo and even more than the upper body. The conceptions of concealment include: a well -suitable two buttons jacket that, thanks to a deep neckline, can make the upper part of the long and thinner body look like. Avoid motive fabrics. Better: use dark clothes and simple shirts. The same goes for the tie: no strips, not too narrow - which also give the upper part of the body a More huge. Avoid the legs of wide trousers - they make you look more often. Don't wear a shirt at all is a fake fashion pass. The number of clothes that a man needs depends on some factors. However, if you wear a dress every day for for Reasons, save taking care of your suit at home. Sfatila (jacket and trousers) after wearing it with a natural brush and let it air on the night in a dry open space before hanging it in your wardrobe. The cutting of the legs of the pants should be long enough to show a full medium pause. To the shoe to make the graphic legs appear in size of a long lumping, the following dimensions are important to determine the size of your new seed: heightchest circumference circumference such as it is better to wear pants full of life. The men of frame and Thinshort often have the advantage of uniformly proportionate bodies, but if they are small and very thin, they may seem imaginative. In fact, in everyday life, countless men wear unsuitable clothes that simply do not correspond to their type of body. Of course, men also have problematic areas. The right cut is sometimes enough. Body height: stay against a door frame without shoes and measure from head to toe. Measurement: Measuring the prominent part of the chest around the body horizontally. Measurement of groundwater: measure horizontally around life. Boat shoes and Penny moccasins are attractive in the summer but should be left to our neighbors south of the Alps - at least in the business clothing area. It depends on the total number of buttons. Pay particular attention to this on the shoulder area of the jacket and around the breast pocket. A high quality jacket has an internal coating that protects the interior and allows the jacket to slide without hitches on a shirt. How do I put my dress in the suitcase? Silk paper is one of the best products to use when packed the suit in a suitcase. Once filled almost the Fold over the legs of the pants. Splex the sleeves of the jacket with tissue paper and put it on top of the other packaged packaged clothing backup. It is better to wear pants with a turn on the shoe. A white shirt almost always works, but also the shirts in delicate tonalities such as blue, light gray or pink that are a great correspondence for a dark dress. The choice of the tie is a little more demanding. The recommended material for a good dress is a mixture of cotton, polyester and Lycra. This is visually impressive. The trousers should not have a turn, however, to look less long. Excellent and muscular the area of the problem for men in this category is usually the stomach. On the other hand, close the least possible buttons possible when wearing a tight jacket. The former classic thin rib shirt is obsolete and suffocating. They make the legs look long. How do you recognize a high quality dress? Inspect the so-called tailoring edge. So you have to measure the most high point of the interior of the leg, towards the part in which the heel touches the ground. Some brands offer such flexibility, others don't. Use our graphs of the size of the suit and the measurement guidelines to find the perfect solution for you. To a glacea dress it is usually made up of pants and a jacket. An elegant shirt below (never with a pocket!). Combined belt, good adaptation shoes, perhaps a tie, more casual without, and you are ready. Being dress does not automatically mean that you are well dressed. Tip: The next time you buy shirts, keep the Cardboard of the collars and use them to stabilize the collars of the jacket in the suitcase. If you often have to appear presentable on business trips, invest in a bag for clothes. Wearing a perfectly suitable dress is a way for a man to look elegant and there are fashion tips to follow to get a tailor -made look. A three buttons jacket is also appropriate even if the aspect is not too short. Avoid Padded areas at all costs, since they even apply more. You should omit samples of all kinds: nor gessa on the jacket, nor strips on the shirt. It should combine the color of the shirt and should not attract too much Example, a tie with blue silver strips and nobles is fine with a blue shirt. These consist of a normal hook (for the jacket) and a thick cross on which the pants are hung without wrinkles. Ties with slightly strong reasons, like Paisley, are fine with a dark shirt. For how, you can also choose a checkered or checkered shirt and wear a solid color tie. A LYCRA content of about 2 % guarantees that the material of the suit extends slightly and always adapts perfectly to the body. The greater the proportion of natural cotton or wool in the material of the suit, the more expensive is the suit. They are at the transition between the sleeves and the shoulder and there should be no wrinkles/decks in the fabric when they wear a good dress. The reason for a dress should run cleanly over the seams without pauses. Most men don't want to look like a bean; it could happen, if they wear the wrong suit. You must also know your length (5) of the pass (along the leg, from the horse to the ground) and (6) the side length (from the waist above the hip to the sole). The ideal seed for a evelop "Tall and thin people have a jacket with a narrow aspect and not less than three buttons. They should avoid wearing leg trousers and instead wear the full life. The ideal dress for "short and thin" people is supplied with a short figure
