Johnny Ute, Ted, Neo and many other Keanu roles have led to one of our favorite Keanu Reeves franchises of all time: John Wick. Why is this movie so great? Are they fast-paced, well-chosen action sequences? Do creative camera work and stage design grab our attention? Did Reeves do most if not all of the stunts in the movies? Whatever it is, these are just some of the reasons why we love the John Wick movies in all their glory. While the first three films can be watched over and over again, it's good to have similar options with new stories to explore while we look forward to John Wick: Chapter 4. Check out this list of top movies like John Wick for a taste of Wick's new shade. Top movies like John Wick. The Raid 2 (2014) Some say it's the best action movie of all time. The Raid 2 is a high-octane sequel that far surpassed its predecessor in terms of quality and budget. From the same guys in Night Comes For Us, the actors showcase their fighting and stunt skills to the fullest, which certainly paved the way for these future projects. With that in mind, this film won her best film to date. Like John Wick, there are a lot of action scenes and good supporting characters, but at the end of the day, there is only one guy who fights alone against a small army of raiders. Read our review of Raid 2 Nobody (2021) New Era The action-packed black comedy everyone is talking about is Nobody, a film that takes the kick-ass old man genre to the next level. As the newest film on this list, it's clear the studio is getting what audiences want: mindless violence mixed with dark humor. While this isn't the first film to do this, it seems like they've already perfected the formula, only enhanced by Bob Odenkirk's excellent acting and line. What makes this movie feel like John Wick is the resilience of the protagonist who is able to regenerate. It will destroy everyone else. Read our review "Nobody. Cruel Henry (2015). No sign-off needed, the Bond-style introduction is brutal enough to turn off the uncertain audience. Shot entirely in the first person perspective, this film is unique in that it can somehow take the face and literally the voice of the protagonist, while still being able to inspire sympathy for him. Highlighted by the appearance of Sharlto Copley clones, this film also has great comedic confidence for how ridiculous it is. If you're looking for top-notch action, look no further as "Hardcore Henry" keeps getting more and more absurd to its convoluted ending: spy and double agents, Explosive Blonde is a performance that solidifies Charlize Theron as the tough protagonist who she is. In Berlin, Lorraine Broughton (Theron) is a British spy who must navigate the chaotic city in the year the Wall fell. As you can imagine, during the Cold War you don't know who to trust which leads to many ups and downs. The addition of James McAvoy as Theron's doppelganger is a really good choice as showing the obvious on-screen chemistry can only increase the viewership of this unique film. Read our Explosive Blonde review. Night Comes for Us (2018) Based on the graphic novel of the same name, Night Comes for Us is a grand story based on the horrifying acts and events caused by the Triad: a Chinese crime syndicate that rules many countries around the world. . The action is graphic yet hilarious, using a combination of styles like "Kill Bill" and "John Wick" to create a bloodier but slightly over-the-top sequence of events. What's special about this story is that it feels dark and gloomy. Create an arthouse feeling from the start that will stay with you. Read our review of The Night Comes for Us. Taken (2008) Like Commando, Taken is about a daughter stolen from the only man you don't know. I don't want to steal. Like John Wick, Bryan Mills (Liam Neeson) is a man of unwavering focus when it comes to achieving his goal: killing everyone responsible for his daughter's kidnapping. Something similar in this film is the actor's age at the time: Reeves was 49 for John Wick and Neeson was 56 for Possessed. Even though Neeson doesn't do his own stunts like Reeves, the mere fact that he's starring in a hardcore action movie is a boon to fans around the world. This is truly one of the best Liam Neeson movies of all time. Read our review of Kidnapped, an introduction to storytelling - and some of the trickiest stunts in modern cinema. Given that director Sam Hargrave has been the stunt coordinator on films like Avengers: Endgame and another on our list, Explosive Blonde, he's guaranteed to always excel in that regard at least. The action scenes are as relentless and tough as John Wick and also use long takes where the actors perform most of the stunts. As a bonus, Chris Hemsworth throws henchmen around like rag dolls, especially if you like Chris Hemsworth movies. Read our review of Extraction. Villain (2017) A little more action-oriented than John Wick Villain stands out on this list for offering moments of creative cinematic combat that will forever raise your expectations of an action film. The most similar things about this film are the fighting styles, the choreography (they did the katana motorcycle fight scene two years before John Wick Chapter 3), and even some of the scenes are reminiscent of that. This is one of twin this list with hero and boy, Kim Okbin shows amazing performance. Read our review of The Villain. Commando (1985) A Schwarzenegger classic, Commando is another movie on this list that shows just how far a man can go when someone takes his daughter from him. John Matrix (Schwarzenegger) may not be your favorite action hero, but you'd better believe that Arnold (as a retired SWAT colonel) really is a one-man army. When it comes to cheesy 80s action movies, this one tops the lists for stupidity. With over-the-top explosions and a Freddie Mercury-style villain, there are some hilarious moments that definitely make the experience all the more enjoyable. Man from Nowhere (2010) A mixture of genres that is shocking and may bring tears to the eyes. Nowhere Man (also known as That Man) is a beautiful combination of elements that naturally balance each other out. Despite some banal edits and choices throughout the film, the plot, performance and action are impressive. The characters are funny and well-written, which gives it an extra comedic touch at times. It doesn't have as much action as John Wick, but the revenge based plot lives up to the expectation. With a Rotten Tomatoes rating of 100%, it's hard not to notice the excellent qualities of this film. Looking for more movies? Check out our list of upcoming movies and top rated movies of 2022.
