Retrieve Full Source 02-04-2011 #1 First of all, I REALLY appreciate all the great information in this forum, and in particular the knowledgeable and helpful folks here. If this has already been discussed, I apologize, but I didn't find it in any searches I did regarding my wirefeed welder and common issues related to these machines. In my searches about my machine (mentioned below) I found a "Compact Wire Welders" Service Manual here: Machines covered by this manual: CODE K-NUMBER PRODUCT NAME 11173 K2480-1 PRO-MIG 140T 11175 K2481-1 PRO-MIG 180T 11254 K2470-1 POWER MIG 140T 11255 K2471-1 POWER-MIG 140C 11256 K2472-1 POWER MIG 180T 11257 K2473-1 POWER MIG 180C 11300 K2479-1 PRO-CORE 125T 11302 K2513-1 WELD-PAK 125HD 11303 K2514-1 WELD-PAK 140HD 11304 K2515-1 WELD-PAK 180HD 11440 K2658-1 MIG-PAK 140 11441 K2659-1 MIG-PAK180 11442 K2661-1 POWER-MIG 180C 11444 K2668-1 POWER-MIG 180C 11501 K2688-1 SP140T 11502 K2689-1 SP180T 11503 K2696-1 EASY-CORE 125 11504 K2697-1 EASY-MIG 140 11505 K2698-1 EASY-MIG 180 11506 K2699-1 WORK-PAK 125 11646 K2481-1 PRO MIG 180 11647 K2515-1 WELD-PAK 180HD 11648 K2659-1 MIG PAK 180 11649 K2689-1 SP180T 11650 K2698-1 EASY-MIG180 There are many other Service Manuals online, listed in these two files: Service Manuals By Numerical Order Service Manuals By Alphabetical Order My browser doesn't handle embedded PDFs correctly, but most folks should be able to get to the manuals directly through these files. Here are some of the MIG/wirefeed machines linked to in these documents: Idealarc SP-250 Idealarc SP-255 (codes 10164, 10165) Power Mig 200 (codes 10564, 10584) Power Mig 215 (codes 11070, 11099, 11247) Power Mig 255 (codes 10563, 10583, 10986, 10990) Power Mig 255C (codes 11192, 11218) Power Mig 300 Power Mig 350MP (codes 11147, 11309) SP-100 (codes 9284-10050) I have seen Owners Manuals linked to in this forum many times, so I was surprised to learn that there are service manuals available for a lot of machines, too, so I thought I'd bring up the topic here. Whenever I find a service manual online, I save it to my PC, because I've seen a lot of manuals removed from companies' websites - seems the lawyers are taking over the world. Can't have people servicing their own machines - ZZZAAAPPP!! I haven't even seen the welder I'm getting, but I'm told the wire feed doesn't work, and I'm hoping I can fix it myself without replacing the PC board. It's a Weld-Pak 125HD, and is covered in the Compact Wire Welders manual above. I'll be asking for plenty of help with that once I've got my hands on it! Scott in Penfield NY 02-04-2011 #2 Oh, yeah, I'm mostly interested in MIG/wirefeed right now, but there are also manuals for lots of Idealarcs, Invertacs, Rangers, Power Waves, Pro-Cuts, etc. Scott in Penfield NY 02-05-2011 #3 I though those manuals were only on the service shop exnet side. and not on the public side. I looked on the public site and did not see a link to service manuals. I know where they are on the service shop. Get what you need quick, lincoln may shut the back door at any time. 02-08-2011 #4 Thanks 80sDweeb! The only one I could not get to load was the last one: All the info is appreciated ! 02-08-2011 #5 Then go to the parent file and choose SP-100 no problema - just gotta help yourself Gordie -- "I believe you understand what you think I said, but I'm not sure you realize that what you heard is not what I meant." 02-08-2011 #6 Thanks Nitesky! It may be Tuesday, but it is a Monday for me 02-09-2011 #7 You're welcome. I was surprised to find these, myself. Glad somebody found them useful. If anybody knows about service manuals online for any other brands, I'd love to know about them. Scott in Penfield NY 02-09-2011 #8 Thanks. Got manual for my machine. Hope I don't ever need it. Lol TA PAK 5XR TA 185 Lincoln Wirematic 250 08-15-2013 #9 Old thread - sure enough, I found it and tried to find the service manual for my Lincoln 140HD. The link is no good any more. I don't suppose anyone downloaded that and has it stashed away somewhere... 08-22-2013 #10 Lincoln changed their site few years ago so old links don't work now. Just got to lincolnelectric.com and the header bar look under support and will see operators manuals. Enter your code number or else look under the models there and operators manual & parts list will come up. You get more exact on manual if enter you code number because sometimes there changes & several manuals to cover one model. Many old ones are back on there and if don't find yours call or email Lincoln they will send it to you if it's available. Last edited by Fixalinc; 08-22-2013 at 08:42 PM. Reason: add more 08-24-2013 #11 Did anyone get the service manual for the Power Mig 300 while those links were available? I'd mightily appreciate a copy. My machine code is just prior to 11000. Respectfully, Charles Brown 08-24-2013 #12 08-24-2013 #13 Last link was for the Power Mig 300. The following link is for the 140HD 08-25-2013 #14 Poptm... Thank you! You were very helpful. I was able to get the information I needed, which will helps explain how the machine works inside much better than the operator's manual does. Sometimes, a simple awareness of how a machine works can help the operator use it better. Respectfully, Charles Brown 08-25-2013 #15 Not all of the manuals are on the web site but they will look them up and the last copy I had sent to me was free. They had to looked it up in the old micro-fiche so it took them a little while but it was nice to be able to get a manual for a unit that was built when Studebaker still owned Onan 08-26-2013 #16 Joseph... who is "they" in your post above? Is "they" the manuals online in the link above yours, or is "they" the Lincoln Electric Company? Respectfully, Charles Brown 08-31-2013 #17 01-06-2016 #18 I realize this is an old thread, but I am having issues with my Power Mig 180c and was looking for a service manual and found this thread. All the links are dead though. Anyone have a copy for the 180c power mig? 01-06-2016 #19 01-06-2016 #20 Here ya go. This one covers the 180C. Click the green DOWNLOAD button in the upper left corner. Pipeliner: that link doesnt work. It says 500 internal server error on lincolns website. But duaneb55, that link worked. Thanks 01-10-2016 #22 Actually that second link keeps timing out. I try downloading it with edge vs Firefox and does same thing. I try to just open it with web browser option and half way though it says server reset. I just downloaded bigger files today with no issues. Any one else able to download it? 01-10-2016 #23 I just did with no problem but not with Firefox.
