Poe cyclone guide.

Tropical Cyclone Batsirai has intensified and is now moving west/west-south-west at about 19 kilometres an hour (km/h). Batsirai is expected to pass by Mauritius at the end of the day today, 2 February, and Reunion tomorrow morning, 3 February, according to the latest forecast from Meteo France. Mauritius is experiencing wind and rains, which are expected to gradually improve tomorrow. Reunion has been on orange alert since 6 a.m. on 2 February, and conditions have begun to deteriorate, with gusts exceeding 100km/h on the coast and 120km/h in the highlands, according to Meteo France. Batsirai is expected to make landfall on the east coast of Madagascar—likely between Mananjary and Mahanoro districts—as an Intense Tropical Cyclone at the end of this week. All of the eastern coast of Madagascar has been placed on green alert in anticipation of the cyclone's landfall, which is expected to have a significant impact. (OCHA, 2 Feb 2022) After the passage of tropical cyclone BATSIRAI on 5-6 February over central and southern Madagascar, preliminary reports state at least 20 fatalities, 69,000 people displaced in shelters including people preventively evacuated and 9,271 children out of school. Various infrastructure damages are reported, including the main access road to the East. Several towns have sustained damage, power and water supply have been disrupted in Mananjary City. Most affected Regions are reported in the East side of the country. Multi-sectoral rapid assessment and aerial survey are ongoing. BATSIRAI is moving south-westwards over the Mozambique Channel. DG ECHO is sending today its rapid response coordinator to assess the immediate humanitarian needs to guide EU's response. The

Government of Madagascar requested assistance from the EU Civil Protection Mechanism through EU Member States and the Copernicus Emergency Mapping Service (EMS) was activated in rapid mapping mode (EMSR564), to support the damage assessment. On 7-8 February, locally rainfall is forecast over southern Madagascar. (ECHO, 7 Feb 2022) The number of casualties across central and southern Madagascar has increased after the passage of Tropical Cyclone BATSIRAI on 5-6 February. According to the Office of Risks and Disasters (BNGRC), 21 people have died, 62,096 individuals have been displaced to 154 shelters, and up to 72,275 people have been affected. Damage has been reported to infrastructure and buildings, including 211 schools, which has affected more than 9,270 students. UN OCHA reports that relief efforts are underway and rapid assessments of the disaster have started. The European Commission is providing emergency assistance to the affected population in Madagascar. ... BATSIRAI is currently moving southwards over the Mozambique Channel and on 8 February at 0.00 UTC its centre was about 300 km from the southern coast of Madagascar. Red warnings have been issued for high waves and strong winds over coastal southern Madagascar. (ECHO, 8 Feb 2022) After the passage of Tropical Cyclone BATSIRAI over central and southern Madagascar, the number of fatalities reached 94 people, while 30,819 others are still displaced in 117 evacuation centres as reported by the Office of Risks and Disasters (BNGRC). In addition, more than 116,000 people have been affected, at least 8,200 houses destroyed, and more than 2,700 damaged. The Copernicus Emergency Mapping Service was activated on 5 February in rapid mapping mode (EMSR564), and 18 maps have been produced so far. On 11-12 February, moderate to heavy rain with thunderstorms is forecast over south-eastern and most parts of eastern Madagascar. (ECHO, 11 Feb 2022) This Build Can Run all shaper guardians, red elder, every unique map boss in the game, and so much more. It is a perfect league starter, and you can do it with only about 20+ Poe chaos Orb. Use Kondo's pride until you can Exchange a Starforge. In Poe 3.7, Cyclone has gotten massive changes this league along with every other melee skill in the game. We have gained massive AOE improvements alongside sustaining life and the ability to increase endurance charges. Vaal Cyclone Skill Balance in Poe 3.7 Now adds 10 to 15 physical damage to attacks at gem level 1, up to 56 to 85 at gem level 20. Now has an attack speed multiplier of 400% (previously had 100% more attack speed). Modifiers to melee attack range now also apply to this skill's area radius. Cyclone Skill Reworks in Poe 3.7 Now a channeling skill. Now costs two mana at all gem levels (from 12). Now deals base damage equal to, and has an added damage effectiveness of, 44% at gem level 1 (from 45%), up to 54% at gem level 20 (from 56%). Now adds 10 to 15 physical damage to attacks at gem level 1, up to 56 to 85 at gem level 20. Now gains stages as it is channeled, up to a maximum three at gem level 1 and six at gem level 20, and loses steps every 0.2 seconds while not channeling. Now gains +1 to melee range per stage. Now has an attack speed multiplier of 300% (previously had 50% more attack speed). Modifiers to melee attack range now also apply to this skill's area radius. Pros & Cons: + Perfect league starter + capability to scale amazingly well - Map mod the build can't do is no leech. Pantheons: Mapping: Lunaris - Gruthkul Bossing: Solaris - Gruthkul Ascendancy: 1. Headsman 2. Bane of Legends 3. Endless Hunger 4. Brutal Fervour Bandits: Kill all get 2 points Level Guide: While leveling, you can use any melee skills such as cleave, frost blades, sunder, wild strike, and so many more. One of the main things you should do is not spec into any of the weapon specific nodes until near endgame or when you have a Weapon that will last you a long time. Typically you want to remain dynamic with your weapon choices so you are not locked in. Cyclone is a channeling attack skill that rapidly hits all enemies in a circular area around the player. Cyclone gains stages during channeling that increase its base radius. The player can move while channeling Cyclone.
