17. $EF = 4x + 2$. Find x if AC is a midsegment and has a length of 15.

$$4x + 2 = 30$$

$$4x = 28$$

$$x = 7$$

Evaluate the expression. This package is your last assignment.and will overcome the exam. Approximately zombies will be in 2035? 30.) A new Jet Ski costs 2400. Be sure to verify if there are extreme solutions. Show your work. A.) b.) For the number 17-18, determine the LCM. How is it worth 2 years? For the number 31-32, use the compound intent to determine the response to the following: 31.) Assume that it places 17,000 in an account that pays 2.95% of annual interwards. Complete this complete package will earn your 5% Extracredit on the exam. Topics: simplifying the equations of rational rational expressions inverse of functions of superior functions of the henchmen and henchmen and the rational expressions that simplify the rational expressions that simplify each of the following expressions. The value decreases by 10% each year. 1, 8, 27, 64, 125, 216, 343, 512, 729, 1000, 1331, 1728, 2197, 2744, 3430, 4287, 5376, 6724, 8400, 10296, 12400, 14700, 17160, 20760, 24570, 28680, 33180, 38100,
